Subject: Truck Route Reboot

Dear Councillor,

I'd welcome changes in Hamilton to:

- route heavy/industrial trucks away from city streets
- allow a maximum 23' delivery truck instead, as described here <https://www.citylab.com/solutions/2014/11/how-smaller-european-style-delivery-vehicles-could-make-us-streets-safer/383027/>, makes so much sense
- mandate side guards on trucks as a pilot, in line with Halifax and Edmonton

Yours truly,

Laurie
Ward 1 resident
