Hello Lisa! This is a brilliant idea with very dedicated, capable people at the helm. As a single, aging, hardworking, enthusiastic woman a project such as this is a perfect solution to remaining in Hamilton. With this as a home option, I am able to look forward to living in a diverse community intent on keeping our minds open, reaping the spoils of our hard work & establishing & maintaining a good quality of life.

Please listen with your heart & your mind tomorrow & think of people like me who have much to offer the world we inhabit as long as we are safe & sound. Thankyou!

Most Sincerely, Susan Walker
