

PLANNING FOR CLIMATE RESILIENCE

Join us for **Planning for Climate Resilience** with **Lynda Lukasik**. Cities are struggling to cope with how to best address infrastructure challenges that come with a changing climate. How do cities tackle the competing issues of urban growth and protecting prime farmland?

Lynda Lukasik Executive Director at Environment Hamilton will share their work on protecting farmland and creating a climate ready Hamilton. This includes challenging City of Hamilton plans to undertake a massive urban boundary expansion into prime agricultural land in rural Elfrida.

Tuesday, February 25
