Subject: No Mandatory Masks

Hello,

Please provide to Mr Ford and add to your agenda.

Mandatory masks are suffocating everyone. People are using the same mask day in day out not cleaning it and touching it and it's more germ contaminated than nit wearing one.

Continue social distancing.

Continue to limit large groups.

Send guidelines to everyone how to combat this with eating properly, exercising, physical distancing, no large groups, workplace switching half employees in the office at a time to allow distancing and safety, there are so many more ways to combat this. Mask wearing is and should only be used when absolutely necessary which is not a mandatory case. People are even wearing masks outdoors. People are fainting.

Thank you.
