The following comments are provided respecting the Building Division conditions for the above noted application:

#### **COMMENTS:**

Based on the submitted survey, it appears that a number of zoning requirements have not been complied with including the following:

- a. A minimum of 63 parking spaces are required on the lands to be retained (13 of which shall be reserved as visitor parking) whereas a total of only 55 parking spaces are provided.
- b. 16 of the 87 parking spaces on the lands to be conveyed shall be dedicated and reserved as visitor parking.
- c. Every parking space is required to be at least 2.7m in width and 6.0m in length. The parking spaces appear to be smaller than required.
- d. The extent of the parking area on both the lands to be retained and the lands to be conveyed are required to be at least 1.5m from the newly created lot line. This distance has not been indicated. Furthermore, a 1.5m wide planting strip is required to be provided within this area on both properties.
- e. A visual barrier (i.e fence) is required to be provided along the newly created lot line.
