**MEMORANDUM TO:** Richard Stubbings  
Assistant Deputy Minister  
Public Safety Division  
Ministry of the Solicitor General

**FROM:** A.J. (Andrew) Ferguson  
A/Superintendent  
Interim Bureau Commander  
Chief Firearms Office

**SUBJECT:** Firearms Reference Table (FRT)

**DATE:** June 16, 2020

**Re: Firearms Reference Table (FRT)**

With the *Regulations Prescribing Certain Firearms and Other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted*, SOR/2020-96, over nine (9) types of firearms, including over 1,500 models and variants have been impacted.

The online Firearms Reference Table (FRT) used by police officers to report firearms in their inventory in the Police / Public Agency Web Services is updated every 24 hours.

The Canadian Firearms Program (CFP) has been working diligently to ensure the FRT is updated to reflect all of the classification changes resulting from the Order in Council issued May 1, 2020. This includes any variants and modified version of the newly prohibited principal model which, based on the CFP's technical experts' assessments, meet the new legal classifications created by the Order in Council.

Any classification questions on a specific firearm can be addressed by calling 1-800-731-4000, ext. 1090 or by email at [firearmident@rcmp-grc.gc.ca](mailto:firearmident@rcmp-grc.gc.ca).

Sincerely,

A handwritten signature in black ink, appearing to read "A.J. Ferguson", enclosed within a large, hand-drawn oval.

A.J. (Andrew) Ferguson  
A/Superintendent  
Interim Bureau Commander  
Chief Firearms Office
