Subject: ABERDEEN AVE.

If for no other reason, and there are a myriad of them, for NOT turning Aberdeen Ave into a two lane thoroughfare, it is the absolute certainty that this wrong-headed move will FURTHER impede first responder vehicles as they attempt to navigate traffic along this already busy street. I've seen first hand the problems for them on Herkimer and Charlton Streets. Are parking lanes really in the same priority column as human lives for the mayor and city council?!
