**Subject:** FW: Should You Wear a Mask to Prevent COVID-19? | GreenMedInfo | Blog Entry

As a concerned citizen of this city, please consider this article regarding the wearing of masks.

<https://www.greenmedinfo.com/blog/should-you-wear-mask-prevent-covid-19>

I find it very difficult to wear one, as do many other people I know. The reasons vary...trauma, asthma, migraines, claustrophobia, and others. Also, the masks promote fear!

Why are we considering mandatory masks when numbers are dropping and the wearing of them is currently mostly voluntary?

To me, it does not make any sense to require masks at this stage.

With respect,

Carla Buss
