Subject: planned reduction of 4 to 2 lanes for Aberdeen Avenue, Hamilton.

Hello,

As a resident of Hamilton, residing on Hess Street south of Aberdeen for 39 years I am interested in the planned reduction of lanes on Aberdeen. Could you please direct me to the study that has been done to evaluate this reduction of lanes, or the department that has studied this reduction so that I can be informed or so that I can fairly judge the process for myself.

Thank you

Robert Schofield
