

# HATE MITIGATION & PREVENTION

The City of Hamilton invites your feedback on twenty draft recommendations within the Hate Prevention and Mitigation Initiative, based on the research and engagement done to date.

Visit [engage.hamilton.ca/hateprevention](https://engage.hamilton.ca/hateprevention) to complete the survey and provide your feedback

Our hope is to refine these recommendations based on further input before they are presented to City Council in February. Your feedback will help us to gauge the level of support for these recommendations and to gather input on how to make them even stronger.

*The City's Vision is to be the best place to raise a child and age successfully. Hamilton remains a safe and supportive city for people regardless of their age, background, colour, religion, ability and gender identity. However, the equity, diversity and inclusion mosaic built for many generations in Hamilton also continues to be challenged by hate incidents, racism, discrimination, homophobia, and anti-Semitism. To address these challenges, it takes the entire community working together to reinforce our values, create effective policies and build our community resilience.*
