# Ontario's Vaccine Distribution Implementation Plan

## **BACKGROUND**

- On December 7, 2020, the province announced the key populations that will be first to receive the COVID-19 vaccine, namely:
  - Residents, employees and staff, and essential caregivers of congregate living settings that provide care for seniors
  - Health care workers (including all those who work in health care settings and those in direct contact with patients)
  - Adults in First Nations, Métis, and Inuit populations where infection can have disproportionate consequences, including those living in remote or isolated areas
  - Adult recipients of chronic home health care
- On December 9, 2020, Health Canada granted authorization with conditions for the use of the Pfizer-BioNTech COVID-19 Vaccine in individuals 16 years of age and older, after an independent and thorough scientific review for safety, effectiveness and quality.
- Health Canada will continue to monitor the safety and efficacy of the vaccine.
- The province has committed to distributing COVID-19 vaccines to priority populations in the **highest risk areas** as soon as shipments are received from federal government suppliers, expected in the coming days.

# **ONTARIO'S COVID-19 VACCINATION PROGRAM**

	VACCINE QUANTITY  Initial doses will vaccinate over 2,500 people, with additional shipments arriving over the coming weeks  90,000 doses of Pfizer-BioNTech and estimated 35,000-85,000 doses of Moderna vaccines (pending approval) are expected in the coming weeks  An estimated total of over 2M doses is expected in this phase	POPULATION TO BE VACCINATED  Residents, essential caregivers, and staff of congregate care settings for seniors  Health care workers  Adults in First Nations, Métis, and Inuit populations  Adult recipients of chronic home health care	Initially, two pilot sites, followed by selected hospital sites in Grey-Lockdown and Red-Control zones, expanding to approximately 21 hospitals across the province  LTC Homes and Retirement Homes as soon as feasible.
2	Increasing stock of vaccines available.	Expanded for health care workers, long-term care homes, retirement homes, home care patients with chronic conditions and additional First Nation communities and urban Indigenous populations, including Métis and Inuit adults.	Expanded vaccination sites
	Vaccines available for <b>every</b> <b>Ontarian</b> who wants to be immunized.	<b>All</b> eligible Ontarians	<b>Widely available</b> across Ontario

# DISTRIBUTION, LOGISTICS AND ADMINISTRATION

#### **Phased Distribution Plan**

### Phase 1 - key milestones

- Pilot week of December 14, 2020:
  - o Pfizer-BioNTech doses to vaccinate **over 2,500** health care workers
  - Two pilot hospital sites, University Health Network and The Ottawa Hospital
  - o **Recipients:** health care workers from long-term care, hospitals
- Additional Pfizer-BioNTech doses expected
  - Expected to receive 90,000 doses in December 2020 January 2021
  - o **14** selected hospital sites in Grey-Lockdown and Red-Control zones
  - Recipients: health care workers in long-term care homes, retirement homes, hospitals, additional congregate settings caring for seniors

# **DISTRIBUTION, LOGISTICS AND ADMINISTRATION (cont'd)**

- Moderna vaccine doses expected (pending Health Canada approval):
  - Expected to receive 35,000 85,000 doses in December-January (planning estimates)
  - o **Expanded vaccinations** to long-term care homes in Grey-Lockdown areas
  - Recipients: residents in long-term care homes, retirement homes, hospitals, additional congregate settings caring for seniors

#### Early 2021:

- o **Expansion** of **up to 21** hospital sites providing the Pfizer-BioNTech vaccine
  - o **Recipients:** health care workers, and once forward movement authorized by Pfizer, long-term care home and retirement home residents
- o **Expansion** of the **number of locations** to administer the Moderna vaccine
  - o **Recipients**: long-term care homes, retirement homes, public heath units, other congregate care settings, remote Indigenous communities
