Subject: SideWalk Snow Removal

To Chair and Members of the General Issues Committee,

Please institute a city-wide **Sidewalk Snow Removal** Program immediately. The mental and physical health of residents will benefit. As well, with the CoVid pandemic, the less residents who visit local hospitals or clinics to address slips or falls, the better!
This is a wonderful measure to support the well-being of our residents, especially the elderly or those with mobility issues. Thank you Council!
