

Deputation Request Details:

I will deliver a presentation regarding concerns of McMaster students about the HPS, including systemic racism and inequity in policing. This will involve reviewing incidents that have damaged students' relationship with the HPS and trust in their effectiveness at protecting our community. I will also evaluate the HPS' response to the large volume of delegations received this year calling to correct issues within the service. Overall, our request is that the Board consider reducing the HPS budget so funds can be reallocated to community services and other crucial areas of need in Hamilton.

Best,
Maanvi
