4. Accommodations for working groups: Jessica came back to the meeting to give us an update on what possible solutions we have available to us. Unfortunately, she was unable to offer anything new but suggested that dictation software is always improving, and that we should try something new in case our previous issues have been addressed.
5. RCF Coalition Roundtable update: Lance gave us an update regarding what the roundtable had been up to since our presentation with Jen Chivers. Her presentation will be attached to the minutes.
6. RCF Schedule 20: We began the process of reviewing the schedule 20 in an effort to better understand how the RCF system works. We reviewed a third of the Schedule.

7. Housing Transition from Hospital: We discussed the presentation made by Tim and Tom at the 2016 E. & C. S. meeting. We decided to remove this issue from the ACPD outstanding business list and start again with a more focused presentation. It was pointed out that the original motion was in conjunction with transitional housing for students and that a more focused approach might make more headway.
8. Adjournment
