Subject: Urban Sprawl

Dear Arlene, I am a property tax paying citizen in ward 1 and I am concerned about the haste city council may be in to approve urban sprawl throughout Elfrida and I am asking you, the mayor and city councillors to pause the decision making/planning until in person consultations have occurred. Not all citizens are comfortable with webinars and zoom meetings and many citizens have no idea what is happening regarding these important decisions. In person town halls and information sessions are needed so ideas can be exchanged and knowledge gained. I fear the elected leaders of our communities are being irresponsible in making these important decisions during a pandemic.

Urban sprawl is costly, and our tax dollars are needed for our crumbling infrastructure, as this is where people live and work. Population density within our urban boundaries can be increased at a much lower cost than suburban infrastructure needs, such as emergency services, public transportation, schools, roads, utilities, etc.

Regarding climate change, though we all acknowledge as citizens that world's climate is changing, I believe there is a disconnect that people, including citizens of our own communities, believe the climate problems are happening elsewhere and not in our own backyard. As elected leaders you all have an obligation to ensure that integrity of our climate footprint is accurately measured, listen to the science.

I am asking all of you to not accept the motion to move forward with the GRIDS 2/MCR report without further stakeholder, in person consultation.

Thank you,

Marsha Sulewski
