Subject: 1269 Mohawk Rd W Development

Hello I am writing to share my opposition to the development of 1269 Mohawk Rd W. I think the plans are unrealistic and unsafe. I believe going through with the plans as currently outlined poses a threat to the neighboring homes. I think that the residents of this future development will be in danger when first responders are unable to access the property due to trying to put so much on such a small area. I am upset at the lack of consideration for the environment of the area as the large tree would need to be removed for this project. Finally I am concerned that removing the home will destroy an important cultural and historic landmark that is important to me as a long time resident of the area. Please reconsider allowing this development to be built.

Thank you,

Azmy Taha
