

Project Overview - Hamilton Walking & Cycling Tours

PURPOSE

Hamilton, ON is a city with a rich history and culture. From labour rights to environmental issues, there is no shortage of interesting stories in the evolution of the city nicknamed “Steeltown”. We are putting together self-guided walking and cycling tours to help residents and visitors connect with Hamilton in a fun and interactive way.

The main purpose of these tours is to allow Hamiltonians to get outside for exercise and fresh air while simultaneously exploring their community and connecting with its local culture and history. In addition to highlighting local cycling and walking infrastructure, these tours will include information on local landmarks, historical events, local businesses, and important cultural locations.

Each tour will have a distinct theme, will be developed with people of all ages and abilities in mind, and incorporate feedback from local organizations and businesses. The tours will be made available for free using mapping tools such as Google Maps, StoryMaps, and Ride with GPS.

TIMELINE

The tours are being created over a 10-week period, with the 3-4 tours being completed by Friday August 27th 2021. Route and theme development began in June, and draft routes will be shared with partners at the end of July for review and input. Our intention is to hold an event in late August to launch the routes, and celebrate the funding provided for this project through the Canada Summer Jobs program.

ABOUT STUCKLESS CONSULTING INC.

Stuckless Consulting Inc. is an independent consulting practice based in Hamilton Ontario, owned and operated by Jamie Stuckless. Stuckless Consulting Inc. is dedicated to providing strategic support to initiatives and projects that create more sustainable, inclusive and healthy communities, with specializations in facilitation, research, content creation, and project coordination.
