**Subject:** Gender & Cycling Research Project

Hi Trevor,

Here's a quick update for the committee about the cycling & gender project as well, thanks!:

*The literature review for the cycling & gender research project has been completed. The community engagements planned for the Spring & early summer were delayed due to other community priorities (ex. lockdown, vaccine rollout). We have re-grouped this month to undertake engagements, and look forward to bringing a report to a Fall 2021 Committee meeting, which includes both insights from the literature review and community engagements.*
