Reason(s) for delegation request: I have concerns about the location of two arched iron signs being installed at Parkside Cemetery across from 6 homes on Parkside Avenue in Dundas. The direct community, the residents who attended the Parkside Cemetery public meetings, were not informed that two arches were to be installed on Parkside Avenue. These signed arches can only be seen from the homes they face. The arches cannot be seen from the major intersection of the Cemetery. The arches are not on the tender, nor can they be found on the concept plan that was approved by the community in February 2019, and posted on the city website March 2019. - no revisions to the plans have been shared with the public to date.
The community does not want the arches to be installed on Parkside Avenue.

Major infrastructure needs to be moved to accommodate them.

There are multiple safety issues for pedestrians.

The arched signs significantly affect the enjoyment of private property as they can be seen from every window and door of the properties they face. They destroy the view of surrounding vistas the cemetery promised to protect.

The arches will have significant negative impact on the property value of the homes on Parkside Avenue.

Will you be requesting funds from the City? No

Will you be submitting a formal presentation? Yes
