

Parkside Cemetery Arches

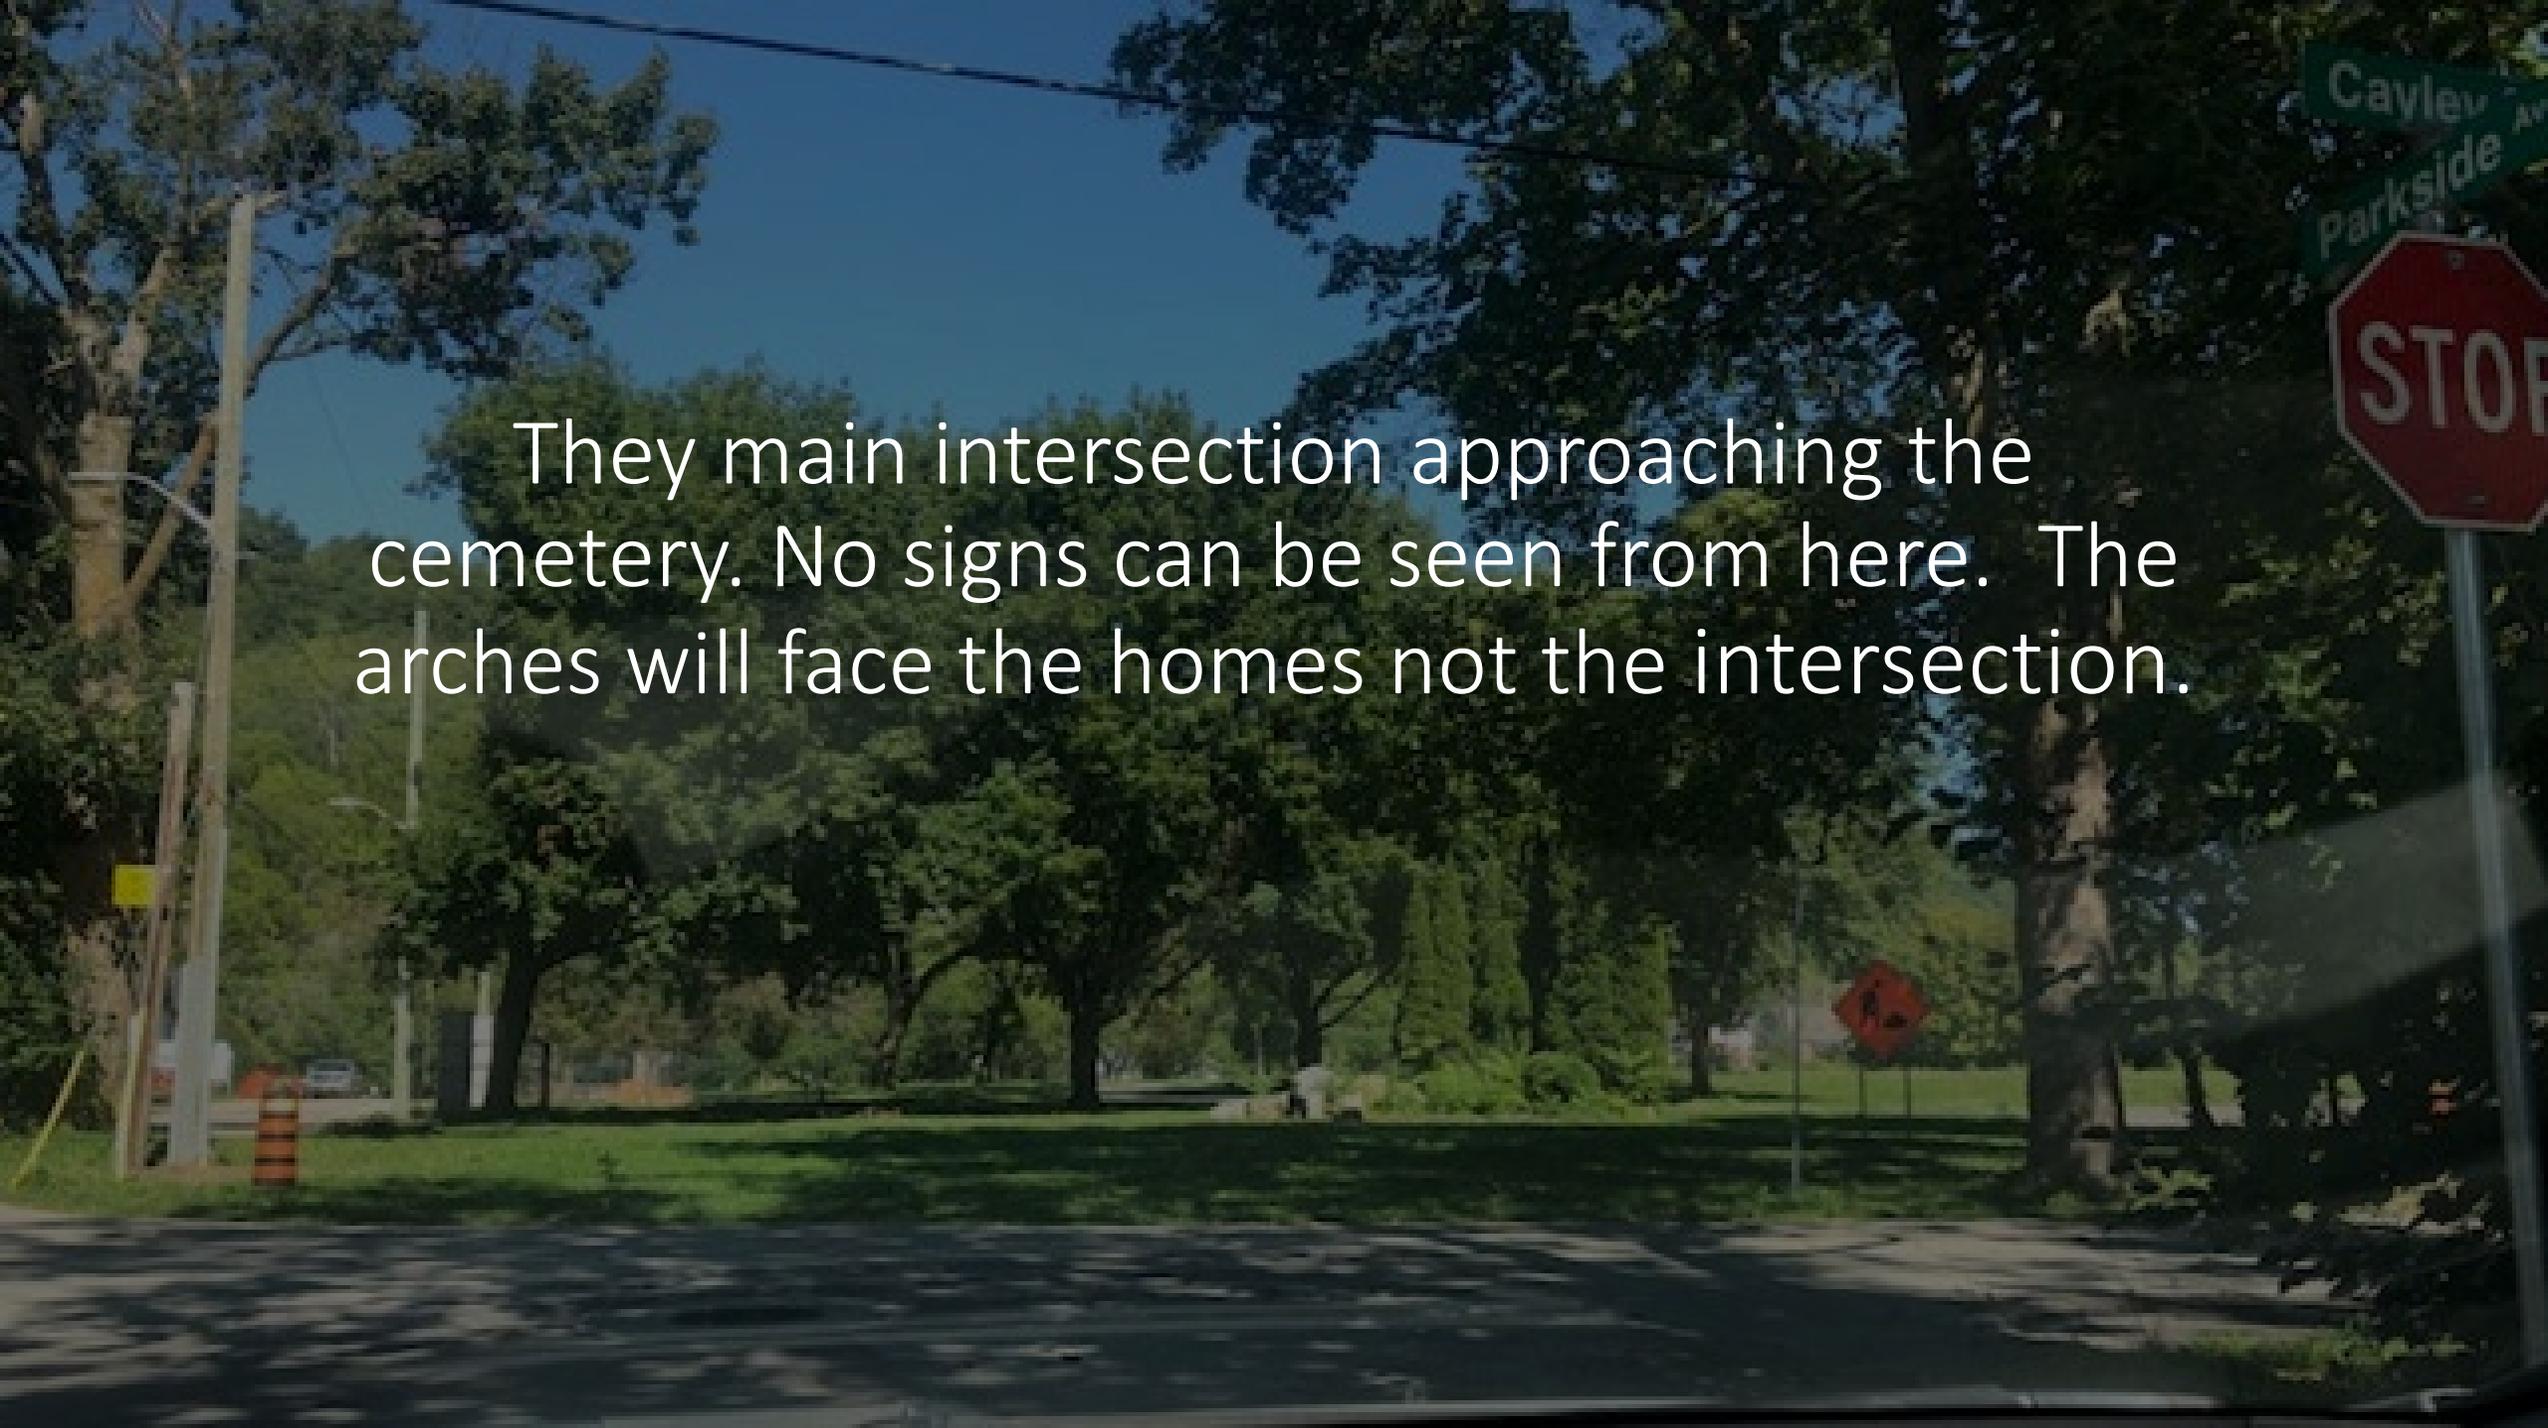

- The direct residents to the Parkside Cemetery in Dundas are asking that more public consultation take place before two 17x 25 ft metal arches are installed at the entrances on Parkside Avenue.

A photo of the city web site shows the only documentation available to residents before September 9, 2021

- The concept plan posted on the city website as "revised based on comments from public consultation."
- There is one entrance arch located at the back of the site.
- There are no arches on Parkside Avenue.

A photograph of a street intersection. The foreground shows a paved road with white crosswalk markings. In the background, there is a large green lawn and a dense line of trees. A cemetery is visible in the distance. On the right side of the image, there is a red octagonal stop sign on a metal pole. Above the stop sign, there are two green street signs: the top one says 'Cayley' and the bottom one says 'Parkside'. The sky is clear and blue. The overall scene is bright and sunny.

They main intersection approaching the cemetery. No signs can be seen from here. The arches will face the homes not the intersection.

Approaching the cemetery from Cayley Road after a tight turn on Sydenham.

- The narrow intersection leading to the entrance of the cemetery.
- No columns can be seen
- No signs will be seen by anyone other than the homes they face.

Columns are barely visible as you cross Cayley Avenue on Parkside.

- Imagine the impact of a 17x25ft cemetery sign every time you step out of your front door, look out of your bedroom window, and pour yourself a bowl of cereal.

Thank-you for your time and attention.

- "The intent is to create a cemetery that feels park-like to blend with the neighbouring Dundas Driving Park and be respectful of the surrounding neighbourhood." - found on cemetery website

Please consider the considerable impact these arches will have on the homes they face.
