Waste Management Advisory Committee

September 27, 2021

**ALL ADVISORY COMMITTEE MEETING
WASTE MANAGEMENT ADVISORY COMMITTEE**

Waste Management Advisory Committee

Mandate

- Provide guidance and direction for the implementation and maintenance of the City's long-term Solid Waste Management Master Plan.
- Provide input on the preparation and implementation of other City solid waste management initiatives.
- Through the Public Works Committee, advise Council on the progress and receive feedback, advice and direction, as appropriate.

Waste Management Advisory Committee

Committee Members

- Councillor Maria Pearson: Ward 10 (Chair)
- Councillor John-Paul Danko: Ward 8
- Councillor Nrinder Nann: Ward 3
- Kevin Hunt, citizen representative
- Lynda Lukasik, citizen representative

The City's Waste Management Division provides administrative support for the Waste Management Advisory Committee

Waste Management Advisory Committee

Committee Activities

- WMAC assists with the implementation of the City's 2012 Solid Waste Management Master Plan (SWMMP) and the 2020 SWMMP Action Items.
- The City has a 65% waste diversion target and the current diversion rate is 42%. WMAC provides input on actions to achieve the City's SWMMP goals.

SWMMP Guiding Principles

The City must lead and encourage the changes necessary to adopt the principle of waste minimization

The Glanbrook landfill is a valuable resource. The City must minimize residual waste and optimize the use of the City's diversion and disposal facilities.

The City must maintain responsibility for the residual wastes generated within its boundaries.

Waste Management Advisory Committee

Committee Activities

- The Waste Management Advisory Committee provides input on solid waste management initiatives, for example:

Waste collections and
waste facility
operations

Waste Planning such
as new waste projects
and legislation

Promotion &
Education strategies
