

PORTRAITS IN HAAA PARK

Photo by Jeff Tessier

Funding recipient: Group of residents led by artist Esther Bryce

Funding: \$2,000

Location: Hamilton Amateur Athletics Association Park (Ward 1)

Installed: June 2021

Estimated removal: Fall 2021 with possible extension until Spring 2022

The project was designed to bring to life, through the means of photography, people who use and enjoy the Hamilton Amateur Athletic Association Park.

The seed for this project was planted when Esther Bryce created an Instagram photo collection, completed over the course of 100 days, capturing different community members in the park.

In this time of increased solitude and community detachment, these photos will bring people together, in the very place where they were taken, igniting memories, inspiring conversation and highlighting the physical space where they were taken, and now displayed.

SCENIC WOODS POLLINATOR GARDEN AND SEATING SPACE

Photo by Jeff Tessier

Funding recipient: Group of residents led by Mackensey Bacon, Kyla Kumar and Jacqueline Bjerno-Brown

Funding: \$2,000

Location: Scenic Woods Park, Ancaster (Ward 14)

Installed: July 2021

Estimated removal: Fall 2022

The project provides an environment for the community to rest and relax, a wildflower habitat for bees and other pollinators, and encourages education about native pollinator species.

Eight raised hexagon shaped garden beds and 2 benches have been installed. For the 2022 growing season, each garden bed will be planted with flowers that represent one of the eight streets that make up the neighbourhood (lavender, bluebell, larkspur, sunflower, daffodil, honeysuckle, indigo and sundrop).

POWELL PARK SIDEWALK GAMES

Photo courtesy of Jonathan Woof

Funding recipient: Group of residents led by Meghan Schuurman, Justin and Joanna Aitcheson, Sasha Reimer and Jonathan Woof

Funding: \$1,180

Location: Powell Park (Ward 3)

Installed: Installed July 2021

Estimated removal: Fall 2021

Powell Park is a well-used park by children and this project will expand the number of play locations available by painting games on the pathway that runs through the park.

Designs will be created specifically for this location and will include instructions in multiple languages to reflect the neighbourhood's diversity. Chalk is provided for anyone who would like to use it in the park's free pantry.
