Dear Ms. Sheffield:

**RE: 4363-4339 HARRISON ROAD, BINBROOK
RESUBMISSION OF CONSENT APPLICATION**

GSP Group is pleased to resubmit on behalf of the owner, Wesley Lemstra, an application for consent for a surplus dwelling from a farm consolidation. The existing building on the severed lands will remain and the retained lands are to consolidate with the lands to the north.

At the August 12, 2021 Committee of Adjustment Meeting, a motion to Table this application was approved in order to address concerns from Hamilton Water staff with respect to adequate lot sizing. Accordingly, the proposed severed lot has been expanded from ± 0.6 ha to ± 1 ha with the lot line along the southern shifting further south to accommodate the additional lot area. As such, the lands to be retained is now ± 22.6 ha. It should be noted that the reserve Leaching Bed Area has been added to the Updated Consent Sketch in accordance with the Hamilton Water comments.

In support of the Consent application, the following information is provided:

1. One (1) copy of the Updated Consent Sketch; and,
2. One (1) copy of a Wastewater Treatment System Capacity Assessment.

Should you have any questions or require any additional information, please do not hesitate to contact me at 226-243-7433 or via email at jjliberatore@gspgroup.ca.

Dear Ms. Sheffield:

**Re: 4363-4339 Harrison Road, RR#2, Binbrook, Hamilton
Consent Application for Surplus Dwelling from Farm Consolidation**

GSP Group is the planning representative of the property owner of the property municipally addressed as 4363 Harrison Road. 4363 Harrison Road is intended to merge on title with 4339 Harrison Road resulting in a farm consolidation (see **Figure 1** the pre-farm consolidation lot configuration and **Figure 2** for the requested severance, post-farm consolidation). The farm consolidation has resulted in a surplus dwelling located on the property and the requested severance seeks to sever the dwelling from the remaining agricultural land.

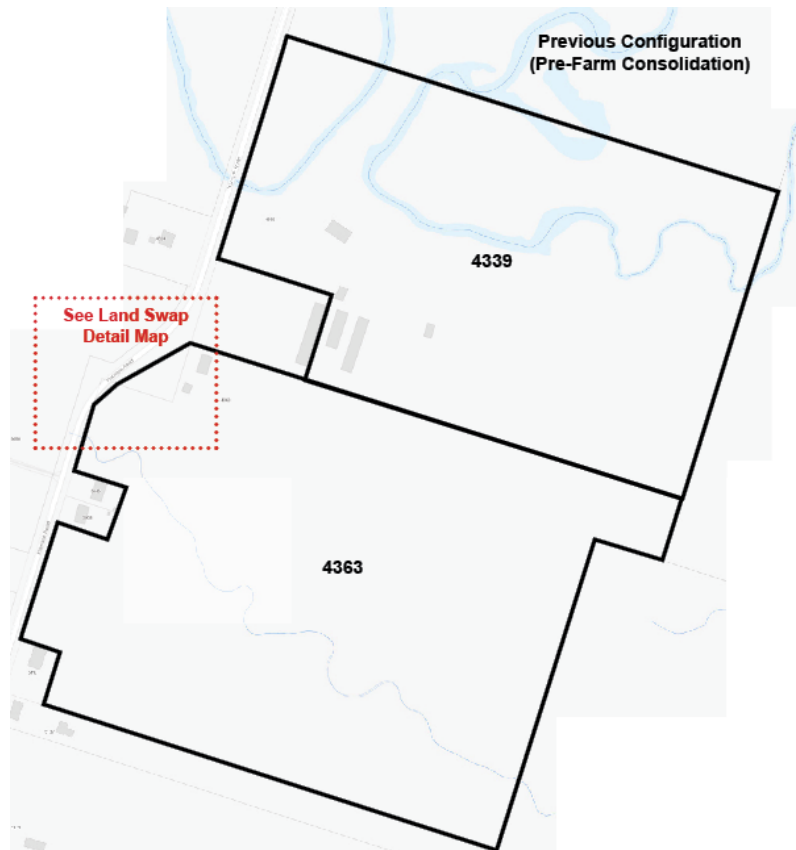

Figure 1: Pre-Farm Consolidation Lot Configuration.

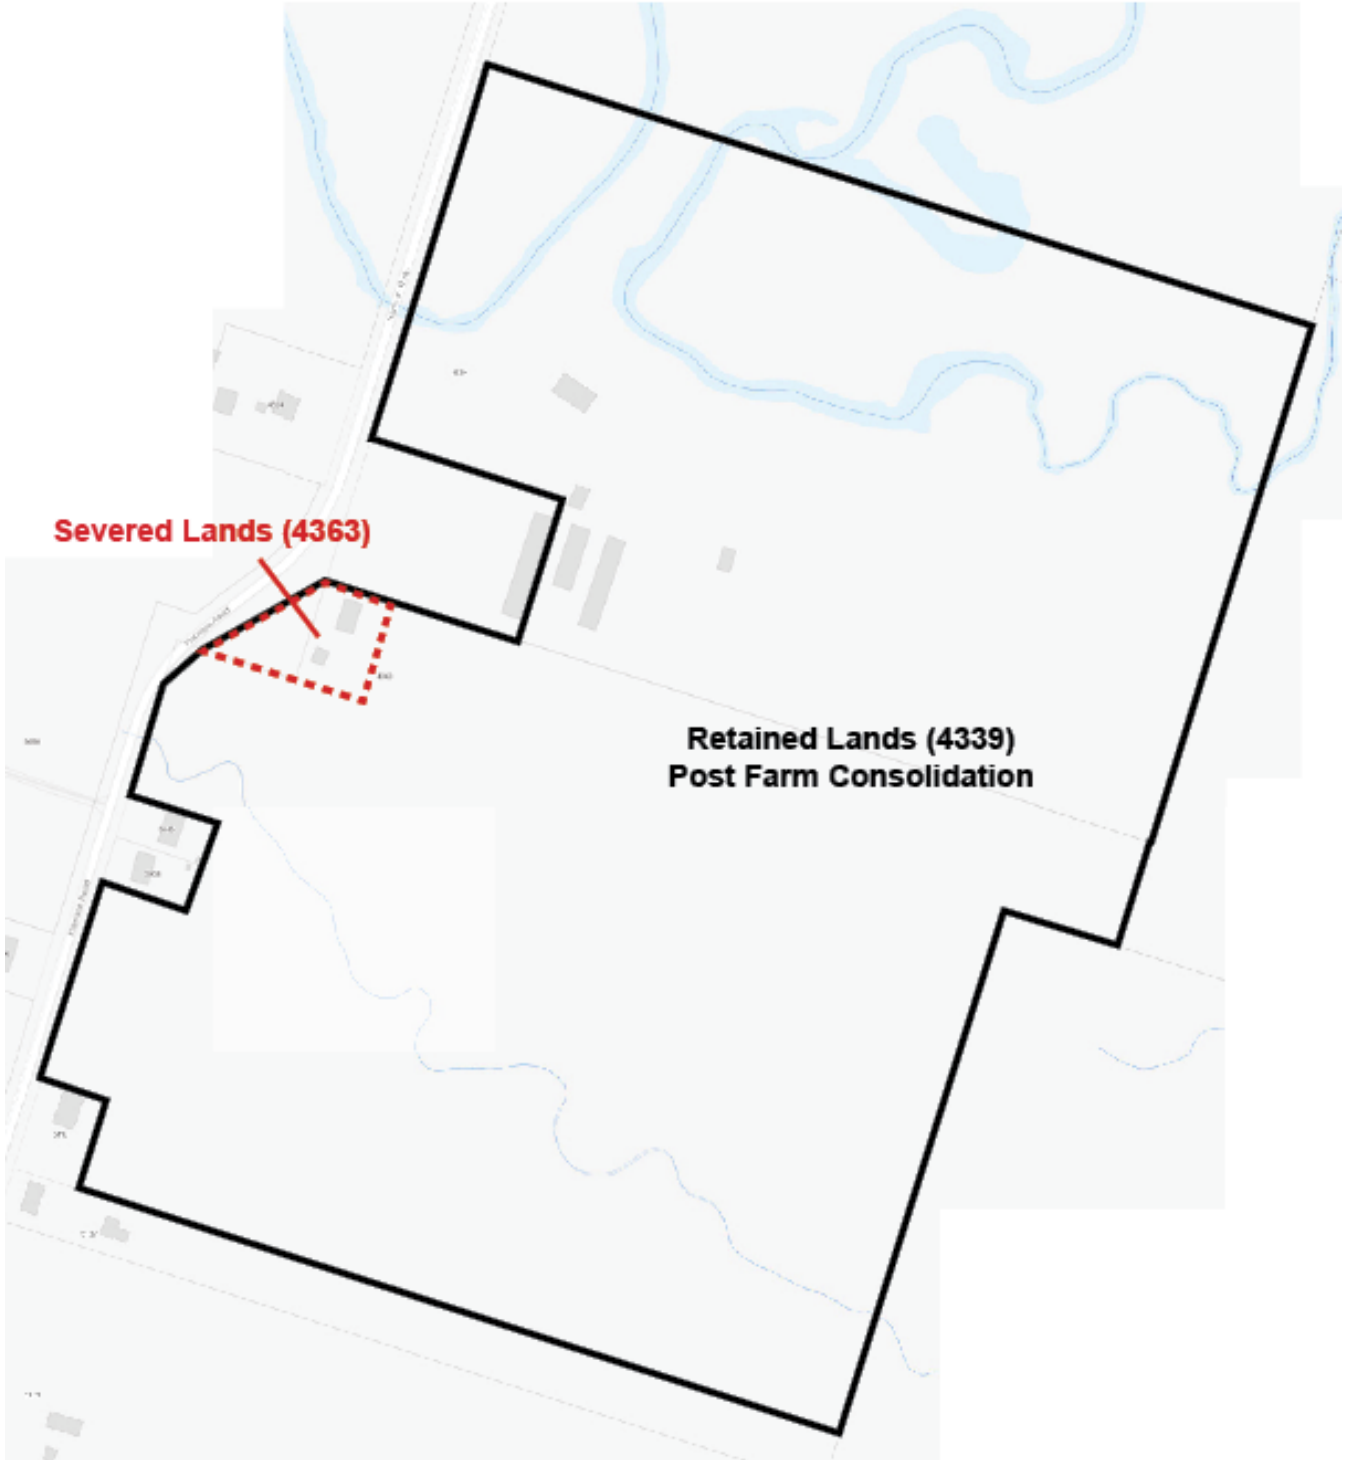

Figure 2: Requested Severance

Land Swap with City - 2019/2020

In 2019/2020 the following transfer of ownership (**Figure 3**) occurred between the owner, the City and Hydro One:

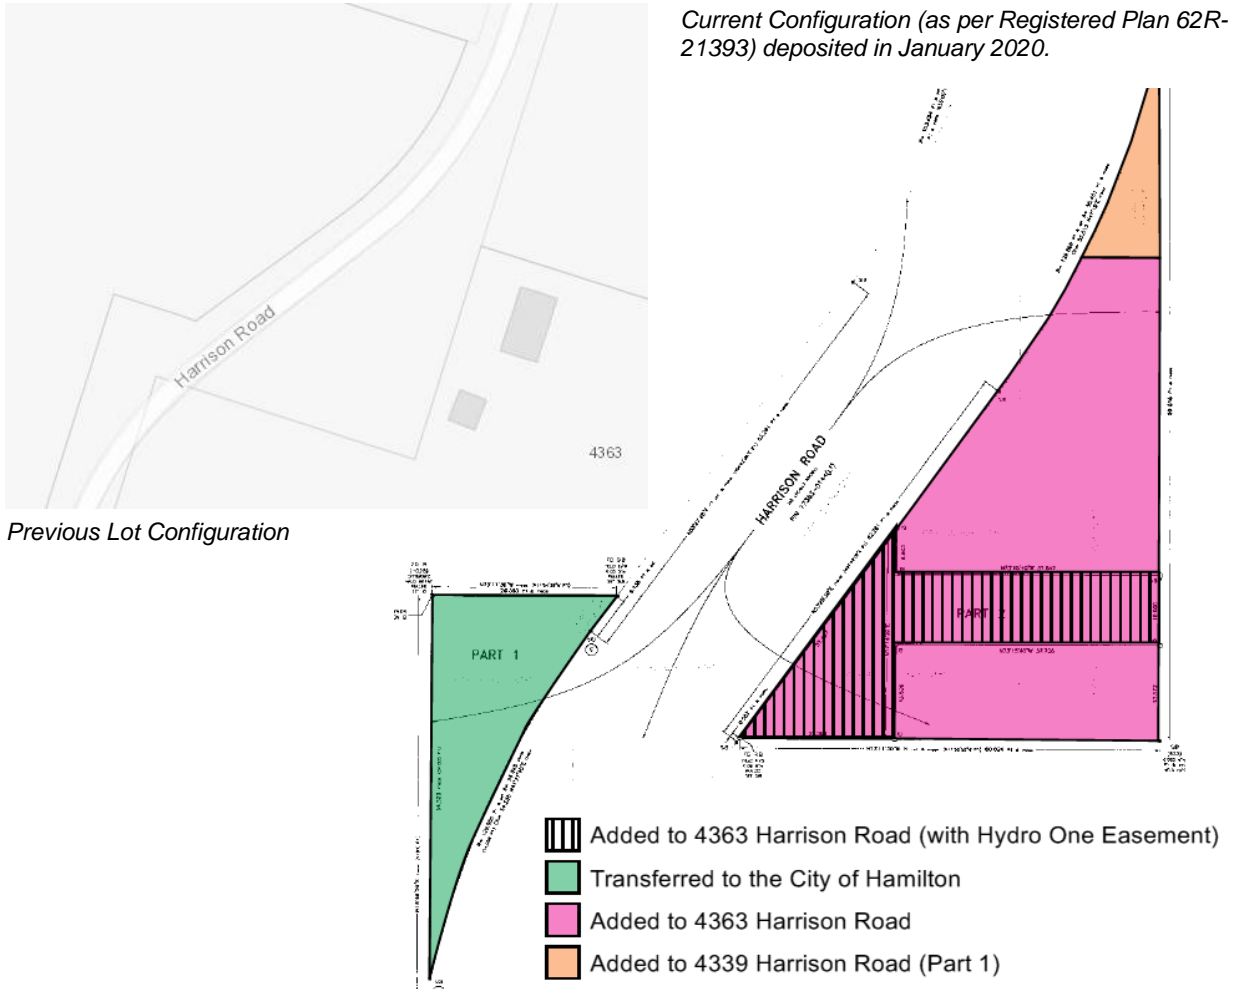

Figure 3: 2019/2020 Land Swap between Owner and City of Hamilton

The above transfer of ownership and adjustment of lot lines are reflected in the provided severance sketches and diagrams.

1.0 Site Overview

4339 and 4363 Harrison Road (hereinafter referred to as the “Site”) is located on the east side of Harrison Road, situated approximately halfway between Kirk Road and Hall Road and has an area of approximately 42.95 ha. The Site currently has approximately 591 m of combined frontage on Harrison Road.

There is currently one (1) existing dwelling on the lands to be severed (formerly 4363 Harrison Road). The dwelling underwent a renovation in 2014. There is an existing dwelling and several agricultural related structures on 4339 Harrison Road. The existing dwelling and accessory structures will remain on the retained agricultural lot. See below **Figure 4**.

Figure 4: Existing Structures on Severed and Retained Lands

2.0 Requested Severance

The purpose of the requested severance is to sever the portion of the Site that contains a surplus residential dwelling on 4363 Harrison Road that is surplus as a result of a farm consolidation that is intended to occur as a condition of approval of the consent application.

The lands proposed to be severed (the surplus residential dwelling) have an approximate area of 6,136 sq m and the lands to be retained (the agricultural land) have an approximate area of 23.6 ha and will increase to 42.34 ha following the farm consolidation.

3.0 Planning Analysis

Greenbelt Plan, 2017

The subject lands are located within the Protected Countryside of the Greenbelt Area. The northern portion of the retained lands is located within the Greenbelt Natural Heritage System but the severed portion is located outside of the Natural Heritage System. As defined in the Greenbelt, the Site is within a prime agricultural area.

The severance of a residence surplus to a farming operation, as per Policy 4.6.1.f), as a result of a farm consolidation on which a habitable residence was an existing use, is permitted, albeit discouraged (as per Policy 4.6.1) provided that:

- i. *The severance will be limited to the minimum size needed to accommodate the use and appropriate sewage and water services; and*
- ii. *The planning authority ensures that a residential dwelling is not permitted in perpetuity on the retained lot of farmland created by this severance. Approaches to ensuring no new residential dwellings on the retained lot of farmland may be recommended by the Province, or municipal approaches that achieve the same objective should be considered.*

In terms of criteria i. above, the severed lot is proposed with an area of 0.614 ha which encompasses the septic area located east of the dwelling, the hydro poles/Hydro One Easement, the water well, and several mature trees located to the south and west of the

existing dwelling. The proposed severance is limited to the minimum size needed to accommodate the on-site sewage and water services while also including the portion of land that, until very recently, was part of the municipal right-of-way while also facilitating a lot configuration that is regular in shape and compatible with other residential lots along Harrison Road. The portion of the proposed severed land that was formerly within the municipal right-of-way is not suitable for agricultural purposes due to the presence of the hydro poles and mature trees.

Regarding criteria ii. above, the retained lands already contains a residential dwelling. No more than one (1) residential dwelling is permitted on the lands as per the Zoning By-law. The merging on title of abutting farm parcels satisfies this condition as it will maintain the intent of the policy by not permitting the construction of an additional dwelling on the retained parcel (farmland).

Based on the above, the proposed severance of the surplus residence to a farm consolidation is appropriate and satisfies the applicable policies of the Greenbelt Plan, 2017.

Rural Hamilton Official Plan (RHOP)

The subject lands are designated “Agriculture” on “Schedule D - Rural Land Use Designations”. The proposed severed lands do not contain any natural heritage features as identified on Schedule B - Natural Heritage System” of the RHOP. The northern portion of 4339 Harrison Road is located within the “Core Areas” identified on “Schedule B - Natural Heritage System” however, the proposed severance line is more than 100 m away from any of the environmental features and no changes are proposed to the structures/dwellings on either the proposed severed or retained lots.

Policy F.1.14.2.8 contains a number of conditions that must be met in order to permit the severance of an existing farm dwelling that is a residence surplus to a farming operation as a result of a farm consolidation. Below is a list of the conditions along with an analysis as to how each policy has been satisfied:

Policy		Analysis
F.1.14.2.8.a) i)	The farm consolidation shall have been completed prior to the time of application	Similarly to recent farm consolidation and surplus dwelling severance at 905 Centre Road in Flamborough (File FL/B-20:71), consolidation will occur prior to final approval of the Consent.

Policy		Analysis
F.1.14.2.8.a) ii)	The farm dwelling shall be determined to be surplus to the farm operation for no reason other than the farm dwelling is surplus to the needs of the farm consolidation. Farm dwellings that have been determined to be surplus to a farm operation prior to December 16, 2004 and prior to the acquisition of the additional farm parcel(s), or as a result of changing agricultural operations, are deemed not to be surplus farm dwellings for the purposes of Section F.1.14.2.8.	The residential dwelling on the severed lands has been determined to be surplus to the farm operation on the retained lands, deemed to be surplus due to the recent desire to consolidate agricultural operations.
F.1.14.2.8.a) iii)	The proposed surplus farm dwelling: 1) shall have been built on or before December 16, 2004; and, 2) shall be habitable on the date of the application for the surplus farm dwelling severance and shall meet the City's standards for occupancy without requiring substantial demolition and new construction.	1) The surplus farm dwelling was constructed before December 16, 2004 and subsequently underwent a renovation in 2014. 2) The surplus farm dwelling is habitable on the date of the severance application and meets the City's standards for occupancy in its current state.
F.1.14.2.8.a) iv)	The surplus dwelling lot shall be a minimum of 0.4 hectares (1 acre), or such larger area as may be required by Section C.5.1, Private Water and Wastewater Services of this Plan. The maximum size of the surplus dwelling lot shall be the size required for servicing in accordance with Section C.5.1, with as little acreage as possible taken out of agricultural production;	The severed lot has a proposed area of 0.6 ha, meeting the minimum 0.4 ha requirement. The additional area is required to encompass the septic area, well, and hydro poles (subject to Hydro One Easement). Appendix A is a septic area locate analysis prepared by ESSA Canada to delineate the location of the existing septic and well systems on the Site, which are wholly contained on the severed parcel. In addition, no acreage will be taken out of agricultural production because

Policy		Analysis
		of the severance (see aerial imagery in Figure 5).
F.1.14.2.8.a) v)	A private water well and private sewage disposal system shall be provided in accordance with Section C.5.1, Private Water and Wastewater Services of this Plan	The residential dwelling on the severed lands is privately serviced (water well and septic system) in accordance with Section C.5.1.
F.1.14.2.8.a) vi)	The shape and dimensions of the surplus farm dwelling lot shall: <ol style="list-style-type: none"> 1. not impair agricultural operations on the retained land; and 2. generally not exceed a depth of 122 metres (400 feet); 	<ol style="list-style-type: none"> 1. The shape and dimensions of the surplus farm dwelling will not impair the agricultural operations on the retained lot; and 2. has varying depths of between 65 m (north lot line) and 114.5 m (south lot line)
F.1.14.2.8.a) vii)	The surplus dwelling lot shall not include barns or other farm buildings which are not suitable to be used as accessory structures to a residential use prescribed by the Zoning By-law, and no such buildings or structures shall be used for industrial or commercial purposes.	The severed lands only contain the residential dwelling and do not contain any agricultural structures. All agricultural-related structures are located on the retained lands.
F.1.14.2.8.a) viii)	Where a barn or other farm building exists within the immediate vicinity of the surplus residence, the City may require demolition of the barn.	There is a barn located on 4339 Harrison Road Part 1 and is located approximately 62.6 m north east of the proposed severance line and an additional ± 30 m from the surplus farm dwelling (a total distance of 92.6 m)

Based on the above, and subject to meeting the criterion in Policy F.1.14.2.8, a severance of the existing surplus dwelling resulting from a from consolidation conforms to the applicable policies of the Rural Hamilton Official Plan.

City of Hamilton Zoning By-law 05-200

The Site is currently split zoned Agricultural (A1) and Conservation/Hazard Land (P7). Single detached dwellings and a range of agricultural uses are permitted in the A1 zone.

The severed lot complies with the applicable zoning regulations as shown in the table below.

The severed and retained lots require the following for the single detached dwellings:

Figure 6: Zoning By-law 05-200 Map

Required/Permitted	Proposed Severed	Proposed Retained	Complies (✓ / X)
Minimum lot area of 0.4 ha	0.6 ha	N/A - See table below	✓
Minimum lot width of 30.0 m	±68.6 m	N/A - See table below	✓
Maximum building height of 10.5 m	Existing: 2 storeys (<10.5 m)	Existing: 1.5 storeys (<10.5 m)	Existing - ✓
Minimum front yard of 10.0 m	27.3 m	<100 m	✓
Minimum side yard of 3.0 m	8.6 m	>50 m	✓
Minimum rear yard of 10.0 m	28.8 m	>300 m	✓
Minimum 1 parking space per detached dwelling	2 spaces in attached garage	2+ spaces in attached garage	Existing - ✓
Setback for all structures from P7 zone	<200 m	±27 m	Existing - ✓

The following regulations apply to the agricultural-related structures on the proposed retained lot:

Required/Permitted	Proposed Severed	Proposed Retained	Complies (✓ / X)
Minimum lot area of 40.4 ha	N/A - See table above	42.34 ha	✓
Minimum front yard of 15.0 m (agricultural buildings)	N/A - See table above	±138 m	Existing - ✓
Minimum side yard of 15.0 m (agricultural buildings)	N/A - See table above	4.5 m and 11 m for accessory structures	Existing - X Does not comply but is existing condition to existing lot line*
Minimum rear yard of 15.0 m	N/A - See table above	>300 m	✓
Maximum Lot Coverage of 20%	N/A - See table above	Building areas of: 385m ² , 152m ² , 536m ² 753m ² , 130m ² for a total coverage of: 1,956 sq m out of 42.34 ha = 0.46% lot coverage	✓
No accessory buildings or structures shall be located within a front yard	N/A - See table above	Accessory structures not located in front yard located	Existing - ✓

**For severance applications, only setbacks to the severance line are required to comply. The non-compliant side yard setbacks are existing condition to an existing lot line and as such no variances would be required. This is based on recent discussions with City of Hamilton Zoning staff on other severance applications.*

Based on the above, both the retained and severed lands with the applicable regulations in Zoning By-law 05-200. The non-compliant side yard setback for the agricultural structures on the retained lot is an existing condition related to an existing lot line and therefore no variances are required.

4.0 Summary and Conclusions

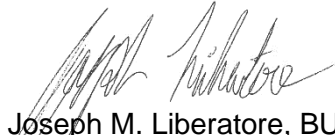

Based on the analysis above, the requested consent to sever the existing residential dwelling that is surplus to a farm consolidation is appropriate for the following reasons:

- the requested severance satisfies the criteria for farm consolidation severances in the Greenbelt Plan, 2017;
- the requested severance conforms to the applicable policies in the Rural Hamilton Official Plan; and
- the requested severance complies with the applicable regulations in the City of Hamilton Zoning By-law 05-200.

Wastewater Treatment System (WTS) Performance Evaluation & Capacity Assessment

Project Overview	
Client:	Eric Wildschut
Property address:	4363 Harrison Road, Binbrook, ON L0R 1C0
Property description:	Single family residential dwelling
Intent of evaluation:	Determine if leaching field is within setback distances required by the property severance.
Date completed:	Original Inspection – May 17 th 2021

Project Background
<ul style="list-style-type: none"> ▪ ESSE was contracted to evaluate the performance and capacity of the WTS serving the subject property in order to comply with a building permit application with the City of Hamilton. ESSE was also contracted to determine the accurate leaching field location with respect to the setback distances in relation to a property severance. ▪ The Client provided copies of the sewage system application and as built documents and were reviewed as part of report preparation. ▪ Best efforts were made to determine the size of the existing septic tank and leaching field – along with setback distances.

Project Conclusion
<ul style="list-style-type: none"> ▪ ESSE & Associates Inc. O/A ESSE Environmental Health (Septic Design Firm BCIN: 41552), determined that the current leaching field for the property is located well within the setback distances in relation to the proposed property severance. ▪ System was inspected by Mike Esselment Certified Sewage Disposal System Inspector/Installer BCIN #24449. ▪ The leaching field is 11.5m from the property line (6.5m from the 5m setback distance), in which the proposed severance would have no impact on the current dwellings ability to have a functional amount of land required for a leaching field. ▪ Appendix A provides a sketch showing component locations and setback distances.
