Subject: THANK YOU!

Dear City Council

We are thankful and relieved that you voted to keep a firm urban boundary in Hamilton. You did not let the Province determine our future, but you listened to the citizens!

Sprawl is neither financially nor environmentally sustainable, nor is it equitable. We will certainly need all possible wetland and farmland, the way the world is going.

I'm sure you know that the City of Hamilton still has 15 years of land supply for single residential homes. Additionally, we understand that you are NOT discouraging development. Development should be within the existing boundary. This way Hamilton will offer a more diverse form and tenure of housing stock, available to a diverse range of incomes and more in keeping with complete, inclusive neighbourhoods.

Again, way to go, and thank you.
All the best, stay well.

Rose Janson and Family
