Subject: Hamilton Bike Share

Dear Hamilton Council, I am glad that you will be discussing the importance of finding a sustainable way to fund the amazing Hamilton bike share system. I know when I see the bike racks and use the service I feel lucky to live in a city that invests in providing their residents with transportation options. Increasing the transportation options of residents is critical to addressing congestion issues, providing a cost-effective way to residents to meet their local travel needs in a sustainable and physically active way. It is a critical addition to Hamilton's public transit system and should be managed as part of the City's transit system. I do hope that council recognizes the critical need to give residents (especially those without access to a personal vehicle) increased transportation options. Please invest and grow the Hamilton Bike Share. Sincerely, Gabriella Kalapos (resident at Macnab and Simcoe).
