

We, the residents of Cline Avenue South, Dow Avenue and Paul Street, who live within 150 meters of the proposed development at 1107 Main Street West, support application UHOPA-20-012.

As a neighbourhood struggling to attract and maintain families due to a shortage of appropriate housing options, this development will provide much needed housing options and help preserve the neighbourhood character. As residents that will be most greatly impacted by the development, we feel this will enhance the quality of living in our area.
