Climate Change Council

Public Transit

- Improve bus frequency and consider the needs of workers and businesses
- Better align local buses with GO train services

Cycling

- Expand bike share operations
- Fill gaps in cycling infrastructure and upgrade protection

Walking & Mobility Devices

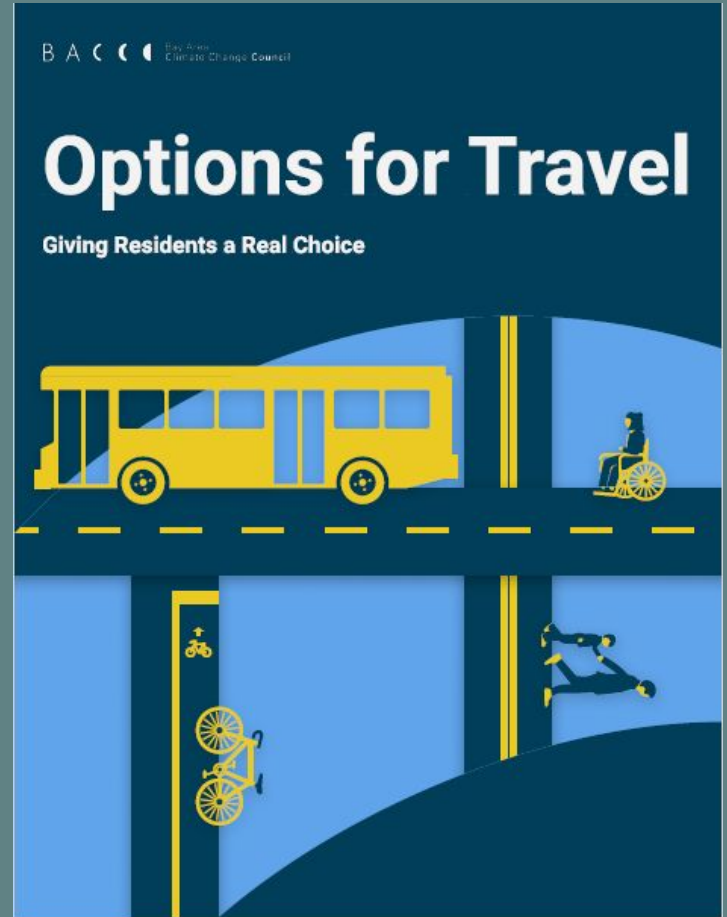

- Ensuring every road - existing and new - has a sidewalk for pedestrians to move safely
- Review and update lighting for perceptions of safety

- Technical experts
- Community groups
- City Staff
- BACCC members

A formal staff review of how each recommendation could be actioned.
