 - (i) at a density less than 20 units per hectare, dedication of land in the amount of 5% of the Net Land Area to be developed or redeveloped;

proportion of the number of proposed additional dwelling units to the total number of units after development; and,

- (g) In the case of lands proposed for commercial expansion, including a building addition or construction of additional free-standing buildings, where no land has been previously dedicated, the parkland dedication calculation shall be based on 2% of the Net Land Area multiplied by the pro rata proportion of the floor area of the new building addition to the total floor area after development.
