Appendix "C" to Report PED22185 Page 1 of 1

1	2	3	4	5	6	7	8	9
Energy & GHG Emissions	Water	Air	Land	Social Wellbeing	Waste	Education	Food	Community Design
Energy labelling (Energy Star, etc.)	Indoor water use	Indoor air quality	Landscaping and biodiversity	Public art	Construction waste	Promotion (green options)	Urban agriculture	Street and block patterns / design
Energy conservation	Outdoor water use	Toxic emissions (VOCs)	Tree canopy	Universal design and accessibility	Recycled / reused materials, building reuse	Communication (e.g. info packets)	Community gardens and local farmers' markets	Proximity to amenities
Renewable energy	Stormwater management	Cool roofs and green roofs	Soil quality and quantity	Affordable housing	Sustainable harvesting practices	Innovation		Pedestrian / cycling networks
Building orientation	Rainwater harvesting	EV charging	Heat island	Safety				Exterior lighting
Building envelope		Bike parking	Erosion and sediment controls					Streetscape amenities
District energy
