To Whom It May Concern

I am writing this email in regards to my Election Campaign Finances

As per the picture that Pascal Marchand submitted showing a Slow Down Children at play sign with a ballon on it (not quite sure why she felt the need to take the picture of it that day but it does prove that she obviously had other motives) yes I did have a meet and greet the candidate on the day of the Crown Point Community Garage Sale

On this day I rented a bouncy castle for the children at my own cost and had free water and popcorn for people in attendance

I had friends that sold their belongings at the sale but I myself did not ...my sole purpose was to talk to neighbours regarding my campaign

I did have a raffle table where I purchased all items that were available so any monies(which were minimal as the day was not about making money it was raising awareness about and my campaign)that I made went to those costs

If I knew that I would have had to include these people on this I would have included each 2.00 ticket on this form

This was the one and only event that I had and the costs that I incurred were far greater than the monetary value that I received as you see it wasn't about raising money it was raising awareness to who I am and my vision for what I wanted to do as councillor

I am very concerned that Pascal Marchand has some grudge against me as like I said she did take a picture the day of the garage sale of my sign and am very confused as to why she would have done that and now this.

I have nothing to hide and in my opinion this is just a huge waste of taxpayers money

I can understand if I had the amount of signs as some of the other candidates or was endorsed by businesses or people but I had one event ..a community garage sale for the kids and people in the community

I am not sure how you want me to prove this information as I have thrown away the raffle stubs but I guess I could put a post on Facebook in the crown point community asking anyone if they bought a ticket for my raffle sale but I think that is about as logical as this whole process is

To me this whole thing is a huge waste of time and money and I'm not sure what the outcome will be but I do hope you and the people that will decide the fate of this realize that I did not run for council as an opportunity to make money I did it for the sole purpose of trying to make things better for my community but I guess some people will always see the worst in others even when they have no idea about them

One other thing, I ran for school trustee in two other elections and never raised a dime for those campaigns either and never had anyone question my finance or my integrity

Thank you

Cindy Kennedy
