

Earlier in the year, the Keep Hamilton Clean & Green Committee was made aware of the decrepitation of the existing Community Clean Trailers.

The old vinyl wraps were discolored by the sun, damaged by years of exposure outside, and featured logos of parties no longer involved in the program.

Earlier in the year, the Keep
Hamilton Clean & Green Committee
passed a motion to access
\$9,955.30 from the Committee
reserve to cover the cost of a
complete makeover to the existing
Community Clean Trailers.

The Public Works Committee, followed by City Council approved this motion in April.

As soon as the motion was passed, the work order was given to M&T Print.

The project is now complete! All previous vinyl has been removed and replaced with updated graphics and information!

The trailers have been rebranded as the Keep Hamilton Clean & Green Community Trailers!

The new graphics are similar to the updated Team Up to Clean Up program graphics, which are more inclusive, bright, and they feature our special orange bags!

Now, for the big reveal!

Your new and improved Keep Hamilton Clean and Green Community Trailers!

8

Congratulations to the Keep Hamilton Clean & Green Committee on this major accomplishment!
