In addition to increasing the assessment and resulting property taxes of the specific property that directly receives funding, the redeveloped properties also help increase the value and desirability of surrounding properties that are no longer next to a vacant, derelict, or contaminated property. Surrounding properties might also benefit from new residents, employees, and customers in nearby redevelopment properties.

Although the Commercial District Revitalization Grant Program, the Gore Building Improvement Grant Program and the Hamilton Heritage Conservation Grant Program are 50/50 matching grants, the true value of the work leveraged by the City Grant is more than 50%. Funds under the Programs are advanced only when the work has been completed. The charts below provide an overview of the grants.

Where established in a Program Description, policies established by Council which address tenant displacement were followed. In 2022, there were four applications to a program where tenants were residing at that location. No tenant displacement was identified as resulting from the proposed work prior to the applications being approved.

Commercial District Revitalization Grant

With the approval of Report PED21035(a) following the Five-Year Review of the CIPA in 2021, the Business Improvement Area Commercial Property Improvement Grant Program (BIACPIG) and the Commercial Property Improvement Program (CPIG) were merged into a single program called the Commercial District Revitalization Grant Program (CDRG). No changes were made to the dollar value of the maximum grant for properties that are within a Business Improvement Area or the maximum grant for eligible properties that are not within a Business Improvement Area. With the approval of Report PED21035(a), the Program was amended to further support environmental sustainability by adding de-paving of hard surfaces, tree plantings, rain gardens, green walls, installation of exterior electric charging stations, solar panels, etc. to the list of eligible expenses. To support a post-COVID Economic Recovery, amendments were also made to increase the flexibility regarding the eligibility of new permanent outdoor patios and decks.

The "Total Commercial District Revitalization Grant Program" in the chart below is the summation of the data pertaining to the projects that were associated with the former (BIACPIG) and the projects associated with the former (CPIG).

The CDRG is intended to provide Grants that will support long-lasting and predominantly exterior physical improvements to the appearance, accessibility and environmental sustainability of commercial or mixed-use commercial properties located within strategic commercial districts, including Business Improvement Areas (BIA), whose visibility and long-term success contributes to Hamilton's image for both residents and visitors. Activities supported by this Program include:

- Exterior building façade improvements;
- Exterior/interior improvements that achieve Accessibility for Ontarians with Disabilities Act (AODA) standards;
- Exterior building/property improvements which improve appearance or functionality including those that enhance environmental sustainability of the building/property; and,
- Limited interior mechanical/ventilation improvements for restaurant uses.

This Program is not intended to provide support for temporary or non-permanently affixed improvements.

Revitalizing Hamilton Tax Increment Grant Program

The Revitalizing Hamilton Tax Increment Grant Program (the Program) is intended to provide a Grant to incentivize property owners within strategic commercial districts to develop, redevelop or otherwise improve properties and/or buildings (including designated heritage buildings) in a manner that will support the broader revitalization of the commercial district as well as generate new municipal property tax revenue through increased property assessments.

As a tax increment-based Program, Grants are provided relative to the actual increase in municipal property taxes that are generated as a result of an improvement/development undertaken on a property. Grants are provided over a maximum term of four annual payments and subject to City Council approval.

Grants under the Program may be provided through one of two streams depending on how the project addresses specific City priorities. Projects will be identified as either a Revitalization Project or an Enhanced Revitalization Project. Revitalization Projects are defined as the undertaking of improvements/developments that will generate an increase in municipal taxes while Enhanced Revitalization Projects are defined as the undertaking of improvements/developments that will generate an increase in municipal taxes and which meet one or more of the following requirements in support of City objectives:

- The improvement/development will receive certification for the achievement of environmental sustainability standards from an eligible organization/program and/or will be connected to (or be designed to allow for future connection to) a district energy system; and/or,
- The improvement/development has been approved for financial assistance under a Canada Mortgage and Housing Corporation (CMHC), federal, provincial or City program for the purposes of creating residential rental housing that address housing affordability within the city.

The maximum Grant amount prescribed for Revitalization Projects and Enhanced Revitalization Projects are identified in the following table:

Year of Grant	Maximum annual Grant amount as a percentage of actual municipal tax increment generated from an improvement or development	
	Revitalization Projects	Enhanced Revitalization Projects
1	100%	100%
2	75%	100%
3	50%	100%
4	25%	100%

In 2022, \$1,233,734.63 was due to be issued to 15 reassessed projects through the Revitalizing Hamilton Tax Increment Grant Program (RHTIG) (formerly known as the Hamilton Tax Increment Grant Program). Since grants were first issued in 2004, \$13 M has been granted through the Program to 49 reassessed projects that had a combined construction value of \$404,243,278.00 which accounts for a 1:27 ratio of public grant leveraging private investment.

The Map, attached as Appendix "E" to Report PED23094, identifies the location of 42 properties within the DHCIPA that have received or are currently eligible to receive grants under the RHTIG. Note that the map does not include seven projects; one located in Ancaster, one in Westdale Village, two in Stoney Creek, and three in Waterdown that have received grants.

Increase in Municipal Taxes

The following chart lists projects in the Downtown Hamilton Commercial District and in the Ancaster, Mount Hope/Airport Gateway (CIPA), Westdale Village, Stoney Creek, Waterdown, and Barton/Kenilworth Avenue North Strategic Commercial Corridor Community Improvement Project Areas (CIPA) that have been approved for loans/grants under the DBKHO and/or the RHTIG and/or the Barton/Kenilworth Tax Increment Grant Program and compares their pre-development Municipal taxes to their post-development Municipal taxes. The increase in total Municipal taxes (inclusive of growth, reassessment and budget) equates to approximately \$10.4 M. This increase will be realized annually. Note that the figures with an asterisk (*) are estimates of the increase in Municipal taxes as the projects have been completed but not reassessed by the Municipal Property Assessment Corporation (MPAC), are under construction, or construction has not commenced to date.

With the approval of Report PED21035(a) following the Five-Year Review of the CIPA in 2021, amendments were made to the RHTIG to better incentivize developers to incorporate housing affordability and environmental sustainability measures into their projects by classifying projects as either a "Revitalization Project" or an "Enhanced Revitalization Project" and varying the level of the grant available in accordance with that classification.

Revitalization Projects are those that will undertake improvements/developments that will generate an increase in municipal taxes. Enhanced Revitalization Projects will not only undertake improvements/developments that will generate an increase in municipal taxes, but also will incorporate housing affordability and/or environmental sustainability measures (enhancements), and therefore would receive a larger grant relative to those developments that will not be incorporating such measures.
