The City of Hamilton assumed social housing responsibilities on December 1, 2001. The share capital of CityHousing Hamilton Corporation is 100% owned by the City of Hamilton and a separate Board of Directors has been established to provide oversight responsibilities for the Corporation.

CityHousing Hamilton Corporation has been consolidated on a line-by-line basis after conforming with the City’s accounting principles after eliminating inter-organizational transactions and balances.

Hamilton Utilities Corporation (“H.U.C.”), Hamilton Enterprises Holdings Corporation (“H.E.H.C.O.”) and Hamilton Renewable Power Inc. (“HRP Inc.”) are subsidiary corporations of the City and are accounted for on a modified equity basis, consistent with the generally accepted accounting treatment for government business enterprises (Note 5). Under the modified equity basis, the business enterprise’s accounting principles are not adjusted to conform to those of the City and inter-organizational transactions and balances are not eliminated.

### 1. Significant accounting policies (continued)

#### (b) Basis of accounting

Revenues are recorded on the accrual basis of accounting, whereby revenues are recognized as they are earned and measurable. Expenses are recognized in the period goods and services are acquired and a liability is incurred.

#### (c) Use of estimates

The preparation of financial statements in accordance with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates include assumptions used in estimating provisions for allowance for doubtful accounts, donated tangible capital assets, solid waste landfill liabilities, liabilities for contaminated sites, and in performing actuarial valuations of employee future benefit obligations.

Where estimation uncertainty exists, the financial statements have been prepared within reasonable limits of materiality. Actual results could differ from those estimates.

#### (d) Cash and cash equivalents

## Notes to Consolidated Financial Statements

For the year ended December 31, 2022 (all numbers in columns are in thousands of dollars)

### 1. Significant accounting policies (continued)

#### (f) Deferred revenue – obligatory reserve funds

Receipts which are restricted by legislation of senior governments or by agreement with external parties are in nature restricted revenues and are reported as deferred revenues. When qualifying expenses are incurred, deferred revenues are recognized into revenue in the fiscal period they are expended.

#### (g) Employee future benefits and other obligations

Employee future benefits and other obligations for retirement, post employment and pension benefits are reported in the Consolidated Statement of Financial Position. The accrued benefit obligations are determined using management's best estimates of expected investment yields, wage and salary escalation, mortality rates, termination and retirement ages. The actuarial gain or loss is amortized over the expected average remaining life expectancy of the members of the employee groups.

#### (h) Tangible capital assets

Tangible capital assets are recorded at cost which includes all amounts directly attributable to acquisition, construction, development or betterment of the asset. Donated and/or contributed assets are capitalized and recorded at their estimated fair value upon acquisition and recognized in revenue. Leased tangible capital assets are valued at the present value of the future minimum lease payments. Certain tangible capital assets for which historical cost information is not available have been recorded at current replacement cost deflated by a relevant inflation factor.

Amortization for road linear assets is calculated on a consumption basis using road deterioration curves. All other tangible capital assets are amortized on a straight-line basis over their estimated useful lives. One half of the annual amortization is recorded as amortization expense in the year of acquisition or construction and in the year of disposal. Estimated useful lives range from 2 years to 100 years as follows:

General - Land improvements	3 to 100 years
General - Buildings	20 to 50 years
General - Vehicles	2 to 20 years
General – Computer hardware and software	3 to 5 years
General – Other – Machinery and equipment	2 to 100 years
Infrastructure – Bridges and other structures	40 to 75 years
Infrastructure – Water and wastewater facilities	20 to 40 years
Infrastructure – Water, wastewater, storm and road linear	18 to 100 years

The City has leased tangible capital assets which are amortized over the term of the lease, ranging from 5 to 50 years. The cost, accumulated amortization, net book value and amortization expense have been reported in these consolidated financial statements.

Assets under construction are not amortized until the asset is ready for use. All interest on debt incurred during construction of related tangible capital assets is expensed in operations in the year incurred. Works of art and historic treasures are not recorded as assets in these consolidated financial statements.

#### (i) Inventories

Inventories held for consumption or use are valued at the lower of cost and net realizable value.

### 1. Significant accounting policies (continued)

#### (j) Government transfers

Government transfers are recognized as revenue in the financial statements when the transfer is authorized, any eligibility criteria are met, and a reasonable estimate of the amount can be made except, when and to the extent that, stipulations by the transferor give rise to an obligation that meet the definition of a liability. Government transfers that meet the definition of a liability are recognized as revenue as the liability is extinguished.

#### (k) Long term receivables

Long term receivables are valued at cost. Recoverability is assessed annually, and a valuation allowance is recorded when recoverability has been impaired. Long term receivables are written off when they are no longer recoverable. Recoveries of long-term receivables previously written off are recognized in the year received. Interest revenue is recognized as it is earned. Long term receivables with significant concessionary terms are reported as an expense on the Consolidated Statement of Operations. Long term receivables are reported in Note 4.

#### (l) Tax revenue

Taxes receivable and tax revenue are recognized when they meet the definition of an asset, the tax is authorized, and the taxable event has occurred.

#### (m) Solid waste landfill liabilities

The Ontario Environmental Protection Act (the "Act") sets out the regulatory requirements for the closure and maintenance of landfill sites. Under the Act, the City is required to provide for closure and post-closure care of solid waste landfill sites. The costs related to these obligations are provided for all inactive landfill sites and active landfill sites based on usage.

#### (n) Contaminated sites

Contamination is a result of contamination being introduced into air, soil, water or sediment of a chemical, organic or radioactive material or live organism that exceeds an environmental standard. The liability is recorded net of any expected recoveries. A liability for remediation of contaminated sites is recognized when all the following criteria are met:

- (i) an environmental standard exists
- (ii) contamination exceeds the environmental standard
- (iii) the City is directly responsible or accepts responsibility
- (iv) it is expected that future economic benefits will be given up; and
- (v) a reasonable estimate of the amount can be made.

The liability is estimated based upon information that is available when the financial statements are prepared. It is based upon the costs directly attributable to the remediation activities required using a present value measurement technique.

#### (o) Related parties' disclosure

A related party exists when one party has the ability to exercise control or shared control over the other. Related parties include key management personnel, their close family members and the entities they control or have shared control over. Related party transactions are disclosed if they occurred at a value different from that which would have been arrived at if parties were unrelated and the transaction has material effect on the consolidated financial statements. As at December 31, 2022, there are no such related party transactions to disclose.

#### (p) Contingent assets

Disclosure of a contingent asset is required under this standard when the occurrence of a confirming future event is likely. As at December 31, 2022, there are no such contingent assets to disclose.

#### (q) Contractual rights

Contractual rights require the disclosure of information in regard to future rights to economic resources arising from contracts or agreements that will result in a future economic benefit. Such disclosure includes the nature, extent and timing of contractual rights. The City is involved with various contracts and agreements arising in the ordinary course of business. This results in contractual rights to economic resources. Contractual rights are reported in Note 18.

#### (r) Assets

### 11. Pension agreements

#### (a) Ontario Municipal Employees Retirement System

The City makes contributions to the Ontario Municipal Employees Retirement System (OMERS), which is a multi-employer plan, on behalf of approximately 7,441 members of City staff and councillors. The plan is a defined benefit plan, which specifies the amount of retirement benefit to be received by employees, based on the length of credited service and average earnings.

The latest actuarial valuation as at December 31, 2022 indicates a “going concern” Actuarial Deficit based on the plan’s current member and employer contribution rates. Contributions were made in the 2022 calendar year at rates ranging from 9.0% to 15.8% depending on the member’s designated retirement age and level of earnings. As a result, \$62,899,000 (2021 - \$61,070,000) was contributed to the OMERS plan for current service.

As OMERS is a multi-employer pension plan, any pension plan surpluses or deficits are a joint responsibility of all Ontario municipalities and their employees. The OMERS primary pension plan has a deficit of \$6.7 billion as of December 31, 2022 (2021 - \$3.1 billion)

#### (b) Other pension plans – Hamilton-Wentworth Retirement Fund, Hamilton Municipal Retirement Fund, and Hamilton Street Railway Retirement Fund.

Approximately 230 current employees and 903 former employees of the City are members of three defined benefit plans; Hamilton-Wentworth, Hamilton Municipal and the Hamilton Street Railway Retirement Funds and are current or future beneficiaries under their terms and conditions. Actuarial valuations of the pension plans for funding purposes are required under the Pension Benefits Act every three years. The actuarial valuations of the pension plans for accounting purposes provide different results than the valuations for funding purposes. For funding purposes, one of the pension plans is in a surplus position and the other two plans are in a deficit position.

The actuarial valuations for these pension plans are based on a number of assumptions about future events including mortality, inflation and interest rates. The one plan with deficits is paying a number of amortization schedules that will be completed over a period of ten years.

The accrued pension liability reported in the Consolidated statement of Financial Position is comprised as follows:

#### 12. Solid waste landfill liabilities

The City owns and operates one open landfill site and it owns and maintains twelve (12) closed landfill sites.

The active landfill site in the Glanbrook community was opened in 1980 covering 220 hectares over three phases with a capacity of 14,821,000 cubic metres of waste. The total capacity has been broken into three Phases, with Phase 1 having a capacity of 8,400,000, Phase 2 having a capacity of 4,855,000 cubic metres and Phase 3 having a capacity of 1,566,000 cubic metres. As at December 31, 2018 landfilling has ceased in Phase 1 and is occurring in Phase 2. Approximately 295,000 cubic metres of un-utilized or recovered (due to site settlement) capacity had been retained at Phase 1 representing 3.5% of its theoretical approved capacity. This is intended for use in the event of an emergency or extended lack of access into Phase 2. For the purpose of financial considerations Phase 1 should be treated as being "at capacity" although the intent is to eventually utilize the retained air space. Filling was initiated at Phase 2 in mid-December 2018 and therefore as of December 31, 2022 still retained an estimated 4,025,000 cubic meters of capacity. It is estimated Phase 2 will reach its capacity and close in 2046. Construction of Phase 3 has not been initiated. It is estimated that the site will reach full capacity and close in 2055.

In 2022 approximately 42% of waste generated was diverted from landfills (2021 - 43%).

The closure costs for the open Glanbrook landfill site and post closure care costs for the closed sites are based upon management estimates, adjusted by 2.69% inflation. These costs are then discounted back to December 31, 2022 using a discount factor of 3.69%. Post closure care for the Glanbrook site is estimated to be required for 50 years from the date of closure of each phase. Studies continue to be undertaken to assess the liability associated with the City's closed landfill sites and the estimates will be updated as new information arises.

Estimated expenses for closure and post-closure care are \$94,410,000 (2021 - \$86,199,000). The expenses remaining to be recognized are \$10,899,000 (2021 - \$7,927,000). The liability of \$83,511,000 (2021 - \$78,272,000) for closure of the operational site and post closure care of the closed sites has been reported on the Consolidated Statement of Financial Position. A reserve of \$1,306,000 (2021 - \$1,275,000) was established to finance the future cost for closed landfill sites.

## Trust Funds

### Notes to The Financial Statements

Year ended December 31, 2022

---

#### 1. Significant accounting policies

The consolidated financial statements of the City of Hamilton Trust Funds (the "Trust Funds"), including the financial statements of the Cemetery and financial statements of the Other Trusts, are the representation of management prepared in accordance Canadian public sector accounting standards. Since precise determination of many assets and liabilities is dependent upon future events, the preparation of periodic financial statements necessarily involves the use of estimates and approximations.

##### (a) Basis of consolidation

These consolidated statements reflect the revenues, expenditures, assets and liabilities of the following trust funds:

Fieldcote Farmer (Ancaster)  
 Dundas Knowles Bequest  
 Hamilton F. Waldon Dundurn Castle  
 Dundas Ellen Grafton  
 Ancaster Fieldcote Livingstone-Clarke  
 Ancaster Fieldcote Shaver  
 Hamilton Balfour Estate Chedoke  
 Cemetery Trust Funds  
 Municipal Election Surplus

##### (b) Basis of accounting

- (i) Sources of financing and expenditures are reported on the accrual basis of accounting.
- (ii) The accrual basis of accounting recognizes revenues as they are earned and measurable; expenditures are recognized as they are incurred and measurable.
- (iii) Revenues on the cemetery lots are recognized upon transfer of title of the deed.

---

#### 2. Change in accounting policy

In 2022, the Trust Funds – Cemetery opted to change its policy for revenue recognition to align the Trust Funds – Cemetery's accounting practices with the City's treatment for collected pre-need contract funds. Revenues are to be recognized in the same period a contract becomes at-need, and until then, the collected funds are to be held as deferred revenue.

Under the previous method of accounting, the collected funds were recognized as revenue when received within the Trust.
