IBI Group c/o Brianne McIntosh Suite 200, East Wing 360 James St. N. Hamilton ON L8L 1H5

Dear Brianne McIntosh,

Re: Sign Variance Application by IBI Group c/o Brianne McIntosh for Lands Located at 1038, 1040 and 1042 Garner Road West, Hamilton (Ward 12)

Please be advised that pursuant to By-law No. 10-197, which regulates signs and other advertising devices pursuant to the provisions of the *Municipal Act* and which delegates the approval of variances for the provisions of the By-law to the Director of Development Planning, I hereby **Deny** the following variance for Sign Variance application SV-22-011:

1. To allow for a Ground Sign face that is electronic message display that allocates up to 50% of the sign area or 8.70 square metres for advertising a business that is not on the property on which the Ground Sign is displayed or an activity, product or service that is not available on that property notwithstanding subsection 5.2.2 (g)(vi) of Hamilton Sign By-law No. 10-197, which permits a Ground Sign proposed outside of the Downtown Community Improvement Area, a Business Improvement Area, the Ancaster Village Core Area, or the Glanbrook Village Core Area to allocate a maximum of 25% of the sign area or 1.2 square metres, whichever is lesser, except for an electronic message display, to advertising a business that is not on the property on which the Ground Sign is displayed or an activity, product or service that is not available on that property.

The reason for the refusal of the above variance is that it is not in keeping with the general intent of the By-law and does not meet the four tests for sign variances provided in Section 6.5 of By-law No. 10-197. Any departure from the By-law is prohibited and could result in financial penalties, as provided for in By-law No. 10-197.

Pursuant to Section 6.6 of Sign By-law No. 10-197, the applicant may appeal the variance application decision of the Director of Planning and Chief Planner to the Planning Committee. To appeal the decision, a written response must be submitted to

### SIGN VARIANCE APPLICATION - SV-22-011

ADDRESS: 1038, 1040 and 1042 Garner Road West, Ancaster (Ward 12)

Owner: 2228023 Ontario Inc. c/o Dan Gubekjian

Tenant: N/A

Agent: IBI Group c/o Brianne McIntosh
Date Application Received: October 26, 2022

## **Background and Description of Proposed Variances:**

The subject lands are located at 1038, 1040 and 1042 Garner Road West, Ancaster and are developed with three, two storey buildings with approximately 25 occupied commercial units with a total gross floor area of approximately 6,336 square metres supported by 134 parking spaces, which was reviewed and approved through Site Plan Control application DA-18-027.

A Plan of Condominium application (25CDM-2021013) for the establishment of tenure of 38 units was also received by the City and draft approved on December 1, 2021.

The lands are currently zoned Prestige Business Park (M3, 376, 678, 771) Zone. The Owner applied for an amendment to the City of Hamilton Zoning By-law No. 05-200 to permit a restaurant on the subject lands. By-law No. 22-062 was passed by Hamilton City Council on March 22, 2022.

The subject property is surrounded by other commercial uses. To the north of the subject property is a commercial plaza with a Walmart, Winners, GoodLife Fitness, Pet Valu, etc. To the south, there are properties with various warehousing uses. The site has an existing digital Ground Sign with static digital advertising for the tenants on the subject lands.

The applicant is proposing to use the existing digital Ground Sign for third party advertisement on-site and provide 10% of community use advertisement, resulting in continuous advertisement turn over.

The requested variance is as follows:

1. To allow for a Ground Sign face that is electronic message display that allocates up to 50% of the sign area or 8.70 square metres for advertising a business that is not on the property on which the Ground Sign is displayed or an activity, product or service that is not available on that property on digital Ground Sign; notwithstanding subsection 5.2.2 (g)(vi) of Hamilton Sign By-law No. 10-197, which permits a Ground Sign proposed outside of the Downtown Community Improvement Area, a Business Improvement Area, the Ancaster Village Core Area, or the Glanbrook Village Core Area to allocate a maximum of 25% of the sign area or 1.2 square metres, whichever is lesser, except for an electronic message display, to advertising a business that is not on the property on which the Ground Sign is displayed or an activity, product or service that is not available on that property.

## Plans/Drawings/Photos Submitted with Application:

Location Map (Appendix "A")
Site Plan (Appendix "B")
Sign Elevations (Appendix "C")
Sign By-Law Provisions Chart (Appendix "D")

### Staff Assessment:

The applicant is proposing to use an existing digital Ground Sign for third party advertisement, display names of on-site tenants, and provide 10% of community use advertisement. The digital sign is pre-existing on the site but does not currently display third party advertisements.

Section 5.2.2 (g) (vi) of the Sign By-law No. 10-197 permits third party advertising on a portion of the sign face area for Ground Signs not within the "Downtown Community Improvement Project Area, a Business Improvement Area, the Ancaster Village Core Area or within the Glanbrook Village Core Area". A maximum 25% of the sign area or 1.2 sq. m, whichever is lesser, except for an electronic message display, may be allocated to third party advertising. Therefore, the proposed Ground Sign is allocating 50% of the sign area or 8.70 sq. m, all of which is electronic message display, which does not conform to the Sign By-law No. 10-197.

Staff are of the opinion that the proposed change to allow 50% of the sign area to advertise third party businesses will create vehicular distractions from the advertisement turn over and is not in keeping with the essential character of the area.

Staff are not supportive of proposal and are of the opinion that the proposal does not meet the intent of the By-law as per the four tests as set out in Section 6.5 of By-law No. 10-197 with respect to the electronic message display. The basis for not supporting this variance is further analyzed in the Evaluation section below.

### Circulation

The application for the requested variances was circulated on October 26, 2022 to internal departments/divisions.

The **Development Engineering Approval Section** indicated that the proposed sign does not appear to have any impact on drainage, servicing, grading or utilities within the site. From a drainage and servicing perspective, Development Engineering has no objections to the Sign Variance application.

The **Transportation Planning Section** indicated that they have no concerns or objections to the approval of the proposed Sign Variance application.

The **Zoning and Committee of Adjustment Section** have reviewed the application, and their comments are attached as Appendix "D".

### **Evaluation:**

The City of Hamilton may approve a Sign Variance application if the general intent and purpose of the Sign By-law is maintained and if the proposal has regard for the four tests as set out in Section 6.5 of By-law No. 10-197.

The four tests are:

a) Special circumstances or conditions applying to the land, building or use referred to in the application;

According to the Sign By-law No. 10-197, providing advertisement to a business that is not on the property on which the Ground Sign is displayed or an activity, product or service that is not available on that property is prohibited. Garner Road West is classified as a Major Arterial Road within the Urban Hamilton Official Plan – Map B.7.4-3 – Transportation Classification Plan. Garner Road West is a high capacity road in terms of traffic flow and the traffic speed posted is 70 km/hour. The digital Ground Sign will be visible to vehicular traffic and can create distractions from the continuous advertisement turn over. There are no special circumstances that result in the Ground Sign not be able to meet the requirements of the By-law.

b) Whether strict application of the provisions of this By-law in the context of the special circumstances applying to the land, building or use, would result in practical difficulties or unnecessary and unusual hardship for the applicant, inconsistent with the general intent and purpose of this By-law;

A strict application of the Sign By-Law would not permit a Ground Sign on this site to allocate a maximum of 50% of the sign area to third party advertisement.

The applicant has provided justification regarding the size of the proposed third party advertisement in their application, stating "there will be no adverse impact on the subject lands or surrounding properties to allow for non-tenant; third party advertisement on-site ... proposing to provide 5-10% of community use advertisement which will ultimately benefit community organizations and surrounding neighbourhoods." Staff are of the opinion that there would be no practical difficulties or unnecessary and unusual hardship if the applicant were to comply with this provision of this By-law.

c) Whether such special circumstances or conditions are pre-existing and not created by the Sign Owner or applicant; and,

The digital Ground Sign is a pre-existing condition. The applicant is proposing third party advertisement display and 10% of community use advertisement. This is not considered a pre-existing condition and there are no special circumstances or conditions that apply that result in the Ground Sign not conforming to the Sign Bylaw No. 10-197.

d) Whether the Sign that is the subject of the variance will alter the essential character of the area in which the Sign will be located.

The electronic Ground Sign is the second electronic message display sign along Garner Road West. In 2019, a 100% electronic message display Ground Sign was permitted by Council at 1147 Garner Road West, approximately 240 metres to the west.

The character of the area is vehicle rather than pedestrian-oriented, with no sidewalks currently provided and a speed limit of 70 km/hr in both directions along Garner Road West. Notwithstanding the foregoing, staff are unable to support the allowance of third party advertisement for the proposed Ground Sign that is the subject of this application. Staff are of the opinion that third party advertising, and the allocation of 50% of the sign face to an electronic message display would alter the essential character of the area and set a precedent for Ground Signs proposed in the future as this underdeveloped area transitions to more urban uses.

The variance requested does not have regard for the four tests and does not maintain the general intent and purpose of the Sign By-law.

### Recommendation:

That Sign Variance application SV-22-011 proposing a digital Ground Sign to allow for third party advertisement and provide 10% of community use advertisement with the following variance:

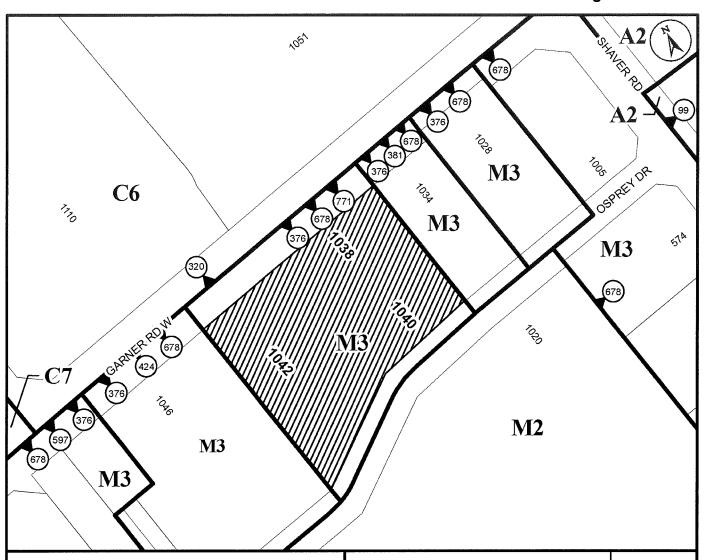

1. To allow for a Ground Sign face that is electronic message display that allocates up to 50% of the sign area or 8.70 square metres for advertising a business that is not on the property on which the Ground Sign is displayed or an activity, product or service that is not available on that property on digital Ground Sign; notwithstanding subsection 5.2.2 (g)(vi) of Hamilton Sign By-law No. 10-197, which permits a Ground Sign proposed outside of the Downtown Community Improvement Area, a Business Improvement Area, the Ancaster Village Core Area, or the Glanbrook Village Core Area to allocate a maximum of 25% of the sign area or 1.2 square metres, whichever is lesser, except for an electronic message display, to advertising a business that is not on the property on which the Ground Sign is displayed or an activity, product or service that is not available on that property.

be **Denied** on the basis that it does not meet the general intent of the intent of the Sign By-law No. 10-197.
