Secondary Planning Strategy for Urban Expansion Areas

In March 2023, Council directed that the **City lead** all Secondary Planning processes for Urban Expansion Areas. Staff were also directed to:

- **Prepare an Official Plan Amendment which establishes a policy framework for Secondary Plans in Urban Expansion Areas;**
- **Consult with the public and stakeholders on both the Official Plan Amendment and draft Secondary Planning Guidelines;**
- Review staff resources needed for privately initiated Secondary Plan applications and report back to Planning Committee on a proposed fee;
- Report back on sequencing and scheduling for City-led Secondary Plans, including budget and staff implications; and,
- Prepare capital budget submissions for consideration as part of the 2024 budget process to facilitate City-led Secondary Planning.

Secondary Planning

What We Heard Report

June 2023

Key themes:

- Environmental protection and climate change
- Loss of agricultural lands
- Water, sewer and transportation infrastructure
- Housing diversity and affordability
- Complete communities
- Public engagement

- Emphasized that Urban Expansion Areas are one component of the strategy for accommodating growth that also includes intensification and redevelopment in the built-up area.
- New planning principle - development of options to recover the full life cycle costs of infrastructure and community facilities.
- Added protection from natural hazards, increasing the tree canopy, and prioritization of transit and active transportation to the planning principles.
- Clarified the process for approval of a Terms of Reference for a privately initiated Secondary Plan.
- Increased the notification area for mailed notices from 120 metres to 240 metres of the study area boundary.

Policy Framework – Planning Priorities

The creation of complete communities that enable residents to meet their daily needs within a short distance of their homes

Provision of a range of housing types, forms and tenures, including affordable housing

Development of an integrated transportation network which prioritizes transit and active transportation, accounts for equity, and prioritizes connectivity

Protection and enhancement of the Natural Heritage system (i.e. woodlands, rivers, wetland)

Adaptation to climate change impacts and reduction of greenhouse gas emissions

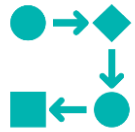

Development of financial strategies to recover the lifecycle costs of infrastructure and community facilities

- The City shall lead secondary planning processes **but** a privately initiated secondary plan process could occur prior to this
- The City (Chief Planner) shall approve a Terms of Reference prior to any work commencing on a secondary plan
- Implementation policies address:
 - Secondary plan area geography
 - Coordination of infrastructure provision
 - Study and process requirements
 - Role of landowner groups

Guides the Secondary Planning process, including:
