The Honourable Doug Ford
Premier of Ontario
Legislative Building
Queen's Park
Toronto ON M7A 1A1

Dear Premier Ford:

Re: Bill 103, Smoke-Free Ontario Amendment Act (Vaping is not for Kids), 2023

Teen vaping has increased steadily across the nation and within Sudbury and districts since 2017. There are significant health risks associated with vaping and nicotine use including lung damage, changes to the brain, dependence or addiction, difficulty learning, and increased anxiety and stress. Furthermore, there is an increased risk for future tobacco cigarette use among youth who vape (Ontario Agency for Health Protection and Promotion, 2018).

Bill 103 aims to prevent youth from starting to vape and seeks to decrease vaping rates through a number of important actions, including prohibiting the promotion of vapour products, and raising the minimum age for purchasing vapour products.

At its meeting on June 15, 2023, the Board of Health carried the following resolution #35-23:

WHEREAS vaping poses substantial health risks linked to the development of chronic illness, addiction, polysubstance use, as well as risks for injury and death; and

WHEREAS vaping rates among youth have grown with 30.6% of Grade 7 to 12 students in Northern Ontario reporting having used electronic cigarettes(vaping) in 2019, compared with 22.7% for the province; and

WHEREAS Board of Health motion [48-19](#) noted the Board's longstanding history of proactive and effective action to prevent tobacco and emerging product use and urged the adoption of a comprehensive tobacco and e-cigarette strategy; and

WHEREAS [Bill 103 – Smoke-Free Ontario Amendment Act \(Vaping is not for Kids\)](#), 2023 aims to prevent youth from initiating vaping and decrease the current usage of vaping products by targeting legislation changes, including banning the retail of flavoured vaping products, increasing minimum purchasing age to 21, and prohibiting the promotion of vapor products;

THEREFORE, BE IT RESOLVED THAT the Board of Health for Public Health Sudbury & Districts endorse Bill 103 - Smoke Free Ontario Amendment Act (Vaping is not for Kids), 2023; and

FURTHER THAT this endorsement be shared with relevant stakeholders.

Vaping among youth is a complex public health issue that requires immediate action. This suggests that a single intervention or approach will be insufficient to address the high rates of vaping among youth. At Public Health Sudbury & Districts, our efforts in addressing youth vaping involve a multi-faceted, comprehensive, upstream, and strengths-based approach that supports positive youth development. Strategies are community and school-driven and influence risk and protective factors associated with vaping. The strategies include education, policy development, prevention programs, research, collaboration, and enforcement activities, fostering the development of supportive social and physical environments in which youth can thrive and flourish. Yet, this is just one piece in a comprehensive approach addressing youth vaping.

The legislative solutions of Bill 103 are designed to make vaping less available and desirable for youth to address the increase in rates of vaping and to prevent the associated harms of vaping.

We thank you for your attention to this important health promotion initiative, and we continue to look forward to opportunities to work together to promote and protect the health for everyone.

Sincerely,

Penny Sutcliffe, MD, MHSc, FRCPC
Medical Officer of Health and Chief Executive Officer
