Subject: Main St W

Just wanted to send a quick note thanking Clr. Wilson for their work on the truck route issue. Hope to see less trucks cutting through downtown in the future.

Yesterday was a very tough day down here, we live at 338 Main W and arrived home seconds after the terrible tragedy had occurred. We have witnessed tens of motor vehicle crashes over the 21 years we have been here. Not to mention the close calls, wrong way drivers, crashes that don't make the news. Yesterday's was possibly the most horrible we have witnessed. Hoping that change will happen, to make the street safer for all users. We continue to support your efforts to improve our neighborhood and city.
