**Subject:** one way streets in Hamilton need to change.

One way streets in Hamilton have to go, our neighborhoods are not a highway.

It is making our streets unsafe, and killing any chance that our lower Hamilton businesses have of survival.

Separately we need to work on building respect for cyclists and pedestrians in this city. I cycle daily and the road rage against anything with less than four wheels is very real. I see aggressive driver behavior towards cyclists on a daily basis.

I live in Gibson neighborhood.
