Subject: Conservation Halton Board Resolution re: Effects of Climate Change on Biodiversity within Conservation Halton’s Watersheds

On September 21, 2023, Conservation Halton’s Board approved the following recommendations in Action Item 8.4 entitled “Effects of Climate Change on Biodiversity within Conservation Halton’s Watersheds (CHB 07 23 09)”:

THAT the Conservation Halton Board endorses the eight recommendations in support of Conservation Halton’s programs and services contained in the report entitled “Effects of Climate Change on Biodiversity within Conservation Halton’s Watersheds.”

And THAT the Conservation Halton Board directs staff to distribute the report to municipal and other partners, post the full report and executive summary to the Conservation Halton website, and engage the public on social media.

And THAT the Conservation Halton Board receives for information, the staff report entitled, “Effects of Climate Change on Biodiversity within Conservation Halton’s Watersheds.”

The report explores how local biodiversity is and will continue to be affected by climate change and provides local examples. It describes what actions Conservation Halton is currently undertaking to address the impacts of climate change on biodiversity and provides eight recommendations for additional action. The report acknowledges the efforts of others, including local municipalities, to address climate change implications and offers suggestions for action.

The full report and executive summary are available for download at the following links:
