

Project Outline: "Sensory Perspectives" Art Exhibition

Project Title: Sensory Perspectives Art Exhibition

Number of Artists: Yet to be determined

Description of Types of Art:

- Haptic feedback devices with audio outputs: This interactive art requires access to electrical power. Sound will be contained within headphones for individual experiences.
- Fibre artists with tactile works: Artists utilizing texture and touch to create engaging artworks.
- VR or online platform engagements: Utilizing virtual reality and online platforms with Soundscape and virtual storytelling components to enhance the audience's experience.

Fee per Artist: \$330 for four hours of display time, which includes setup and takedown.

Responsibilities of Organization (Center Three):

- Recruitment of artists
- Collection of bios
- Messaging and promotion of the event
- Administrative fee for recruitment and management: \$250

Timeline:

- Initiated start date: Eight weeks prior to the event on September 26

Requirements from Committee:

- Measurements for allotted space for artists
- Electrical availability to support interactive works
- Activity outline for the event on September 26

Description of Center Three:

Center Three is dedicated to fostering inclusive access for artists and the artistic community to engage in social practice and community development. With a 20-year presence in the Hamilton community, Center Three focuses on building relationships to support the growth of the arts community through art-based practices and services.

If this perspective and outline makes sense to incorporate, please let me know next steps and we can continue the conversation :-)

Have a great day and look forward to continuing the discussion.

Yvonne Felix
