Hey Anna,
Thanks for the notice. Much appreciated.

I will be participating via the virtual option. Can this email suffice for my request?

Something else I noticed that I unfortunately wrote the wrong lot frontage and depth on page2 (frontage 8.9m, depth 15.8m)

I'm not sure if it matters, it's accurate on the site plan that was provided with the application but for reference her is the accurate frontage and depth:

Lot frontage: 29.0m

Lot depth: 51.8m

Let me know if I need to do anything or if this even matters at all to the file.

chris
