Blue Box Transition Update

Item 6.4

Blue Box Transition Update

Next Steps:

- Finalize agreement with Circular Materials on continuing to collect residential blue box material at the Community Recycling Centres during the transition period (April 1, 2025, to December 31, 2025):
 - Circular Materials will compensate the City for continuing this service
 - Compensation offer from Circular Materials currently covers approximately 117% of the operating costs
 - Contract risks currently being evaluated by staff
 - This would result in no commercial blue box material, AND no residential bulky rigid plastic, being accepted at CRCs
