Subject: Written Submission - September 18 GIC

External Email: Use caution with links and attachments

Good morning,
Attached is a written submission for the September 18 General Issues Committee respecting Encampments and Homelessness. This documentation will be in connection with the delegation request and discussion submitted today by Jan Martin.

Attached is the written letter, and two additional files inclusive of signatures from a petition our neighbours started to unify around three consistent needs. Signatures and support of the petition have been collected from both door-to-door discussions and signatures made online by Hamilton residents. For your immediate consideration will be a requirement to obfuscate/redact the personal information of respondents within the written door-to-door submission (pdf file) of address and contact information. Is that something you can do before the documents are added to the record? If you can't please let me know and I will attempt to do it and resubmit it.

Thanks in advance,
Andrew Tziatis
