I am a resident at 898 West 5th Street and have received a letter from the COMMITTEE OF ADJUSTMENT regarding a Minor Variance for the SUBJECT PROPERTY: 888 West 5th Street.

I am puzzled with the Subject Property shown as 888 W 5th Street, as the reason for the Notice is for residents within 60 metres of the intended severance of an existing lot.

Existing properties on the west side of West 5th Street are addressed with even numbering, and there are no known lots that are available for building on this side of the street.

Rather, the numbering of the potential/subject property should probably end up with a numbered address which appears to me will face Fortissamo Drive, or, if any new building will face West 5th on the east side, the new building should have an address with an uneven address number.

=====

I will not be attending the hearing due to disabilities, but would welcome a reply to the above question; please and thankyou.

I would wish to be notified of future public hearings, if applicable,

and

I would wish to be provided the Notice of Decision of the proposed consent, and would appreciate that you consider this being passed on to the Committee of Adjustment via this e-mail.

and

Would request an answer to my question of the Minor Variance being at 888 West 5th Street which would, of course, then affect my home and property.

Thank You,
