Subject: 2 -storey ADU's

External Email: Use caution with links and attachments

Dear Hamilton City Councillor's

I am writing to you regarding the motion put forward to limit the height of ADU's to one storey. I feel that this motion will be detrimental to the building of ADU's across Hamilton. As a co-founder of In My Backyard Housing Movement I strongly believe that ADU's are an important piece of addressing the housing crisis across our city and province. Limiting the height of ADU builds to one story will greatly limit the number of backyards which would be capable of building and ADU due to limited footprint space. It also would limit the ability to build two bedroom spaces that can house a family with 1-2 children. I believe that with the state of housing, let alone affordable housing Hamilton needs as many ADU's built as fast as possible. This motion will greatly reduce the amount of ADU's that can be built in Hamilton. Please reconsider this motion and support the creation of more housing options and affordable housing across the city.

Sincerely ,

Alicia Wilson
