It is understood that a private well supports the existing dwelling and its water servicing. As a result, the applicant shall forward the Ministry of Environment Water Well Record for the existing well to Source Protection Planning for our review. If the Water Well Record cannot be located OR if the well is more than 10 years old, it shall be inspected by a licensed water well contractor for its condition and its sustainable pumping rate verified to demonstrate that the existing well can sustainably support the residential use. Any improvements to the condition of the well suggested by the water well contractor shall be implemented and associated documentation shall be forwarded to Source Protection Planning for review. Find licensed water well contractors here: <a href="https://www.ontario.ca/page/find-licenced-well-contractors">https://www.ontario.ca/page/find-licenced-well-contractors</a></li><li>2. The water well contractor or other qualified professional (P.Eng, P.Geo) shall obtain water quality samples from the onsite well. Parameters to be analyzed shall be at minimum, general chemistry, major ions, nutrients, and metals, E. coli, total coliforms. Find licensed laboratories here: <a href="https://www.ontario.ca/page/list-licensed-laboratories">https://www.ontario.ca/page/list-licensed-laboratories</a></li><li>3. A revised site plan shall indicate the location of the well and septic system components (tank(s) and leaching bed) and demonstrate that the locations conform with minimum clearance distances within Part 8 of the Ontario Building Code. A reserve area bed shall also be delineated to conform to Rural Hamilton Official Plan requirements.</li></ol>
