Subject: No to the MZO

External Email: Use caution with links and attachments

Good evening,

I'm reaching out because I've learned about the consideration of expanding the urban boundary of Hamilton and building on farmland. Enough is enough. The environment needs to be the TOP consideration before it's too late! My whole household wants our voices to be heard, that we want to say NO to the MZO by voting against development on our rural natural lands. Please can my message be added to item 9.2 of the Feb 4 Planning Committee agenda.

You have the power to do what's right.
Thank you,
Kelly Waselynychuk
