RE:REZONING ATTEMPTS @ MCNEILLY

Good Day...

I am writing this email re REZONING ATTEMPTS @ MCNEILLY.

Sadly, I could not attend this meeting however, as per my neighborhoods concerns regarding building the additional townhomes as well as park plans that have been in place for well over 10 years, I too do not believe these projects are functional in our neighborhood. I would like to give a shout out to Sharon who has been working so hard as well as Mr. Beattie in efforts to keep this project from happening here.

We are dealing with speeding cars, (commercial trucks and residential drivers) on this street and truly do not need to have a park that will generate children attendance, we are asking for problems. I believe that there is a reason for these building delays, perhaps we should take it and run with it...**rezone somewhere other than in our once quiet neighborhood!!**

REQUEST:

Please rezone this project to another area in this large city of ours.

We need to get back to basics in a world that sadly does not understand what that means any longer.

REZONE....

Regards,
Mike
