

Waste Diversion at City Facilities

Item 7.6

Waste Diversion at City Facilities

In response to inquiries from committee members, staff are providing the following information on waste management diversion at City Facilities:

- All facilities that host events have garbage and recycling services, green bin service is inconsistent across facilities
- Contracted cleaning staff are responsible for waste sorting and disposal
- Events at City facilities coordinated through the Special Events Advisory Team do not have a requirement to sort waste
- Green procurement action item under the 2020 Solid Waste Management Master Plan update included developing scoring for proposals that meet environmental standards
- Waste Management staff will work with other divisions to review and update policies to support waste diversion
