Subject: heritage designation of the Powerhouse

To whom it may concern:

I would like to support the decision by heritage staff to designate the Stoney Creek Powerhouse. As the Stoney Creek rep on the HMHC for 10 years , I am fully aware of the cultural value this building represents in our small downtown. As a member of the Doors Open committee I managed this site last year and heard the positive feedback from visitors, some local, some from as far away as upstate New York. I am a patron of the restaurant on average twice a week. Preserving this site and the existing original heritage features is a positive move towards preserving the rich history of Stoney Creek. Regards, Kathy Wakeman
